The report of the gas committee is as follows:

Your committee to whom was referred the communication of W. W. Maynard, President of the Marquette Gas Light Company requesting this council to designate the location of a certain number of lamp posts ordered by the council last year. After investigating the matter they leave to report that it is the opinion of your committee that a lamp post should be located at the following places, viz. At the Northwestern Hotel to replace one destroyed by Mr. Mosier for which he paid to J. J. Whiting \$25.00. —

One at the point of Rocks on Lake Street to replace one destroyed by the blasting of rock by the Cleveland Iron Mining Company. And your committee would recommend that a bill for lamp post and sitting be made out and put in the hands of the City Treasurer for collection of the Cleveland Iron Mining Company. One on Lake between Superior and Main Streets, opposite Spring Street. And one on Front Street at the Rail Road Crossing at the corner of Louis Schweitzer — And your committee would not recommend the location of any others at this time, for the reason that many places where they are needed, most, no pipes are as yet laid, but will probably be laid during the summer, — when the balance of the posts can be located.

Respectfully

Edward Fraser } Committee
