WASHINGTON
PARK.
The committee on parks and cemeteries reported as follows:
To the Common Council:

your committee on parks and cemeteries respectfully report that they have had under consideration the improvement of Washington Park, and recommend that in view of the needs of a very large portion of the people of the city this park should be put in attractive condition.

A reasonable outlay of money would, we think, make Washington Park a pleasant and agreeable sitting place for evening resort, something which the city does not now afford, and since the street car line is now, and in future will be operated so as to accommodate persons who might visit the park, we think something should be done to make it neat and inviting.

We recommend that the council take early action with the view of making the following improvements in said park, viz:

The repairs of the sidewalks and fences.

The construction of gravel walks.

The construction of suitable seats and benches.

The repairs of band stand, and erection of cover over same.

The erection of a suitable pavilion, or pavilions.

The construction of a simple fountain.

It is important if this park is to be made suitable for evening resort, that it be well lighted, and for this

Purpose, we recommend the erection of arc lights at the following places.

One at the intersection of Washington and Bluff streets.
One at the intersection of Park Avenue and Bluff street;
and one within the park at or near the center.

Respectfully submitted,
George Q. O'Neill,
E. H. Bush.

Committee on Parks and Cemeteries.
