SPL CONCRETE

SIDEWALK

ASSESSMENT

ROLL No. 3.

CONFIRMED

The controller presented Special Concrete Sidewalk Assessment Roll No. 3.

The recorder presented proof by affidavit of Ed. J. McCarthy of the due publication of notices by the recorder of the making of Special Concrete Sidewalk Assessment Roll No. 3, for the cost and expense of the construction of concrete sidewalks in front of and adjoining private lots and premises in the city; that the same was on file with the controller for public examination, and that the Council would meet at this time and place for the review, correction, adoption and confirmation of the same; which affidavit was placed on file.

Opportunity was then given for all persons interested in said assessments to be heard in relation thereto.

On motion of Alderman Donovan, supported by Alderman Rean, the following was unanimously adopted;

Whereas, It is deemed proper, that the expense of the construction of those parts of concrete sidewalks which lie within the intersections of streets, shall be paid by the city;

Resolved, That the assessments of the following parcels of land on Special Concrete Sidewalk Assessment Roll No. 3, be changed and fixed at the following sums:

Palmer's Addition No. 2, Lot 145	\$85.59
Palmer's Addition No. 2, West 1/4 of Lot 235	50.45

All the assessments on said roll were then separately reviewed, corrected and approved to the satisfaction of the council, and as so reviewed, corrected and approved, were extended and set down on said roll in a separate column as appears therein.

On motion of Alderman Ball, supported by Alderman Shea, the following was adopted;

Whereas, The recorder, has given due notice by publication on December 4<sup>th</sup>, 1907, in *The Daily Mining Journal*, a public newspaper, of the city, that Special Concrete Sidewalk Assessment Roll No. 3, for the cost and expense of the construction of concrete sidewalks in front of and adjoining private lots and premises in the City of Marquette, had been made in pursuance of the ordinance of the city in relation thereto, and was on file with the controller, for public examination; which notice contained a list of each of the lots and parcels of land embraced in said roll and the sums assessed against them respectively thereon, and stated that on Monday, December 15<sup>th</sup>, 1907, at 8 o'clock p.m. the Common Council would meet at the Council Chamber, in the City Hall, for the review, correction, adoption and confirmation of said roll, and at which session or adjournment thereof all persons interested in said assessments would be given an opportunity to be heard in relation thereto; and

Whereas, All persons interested in said assessment roll and the properties therein mentioned having been given an opportunity to be heard in relation thereto, and the same having been fully considered, and all needful revision and correction of said roll having been made to the satisfaction of the council, and the amounts of the several assessments as reviewed, corrected and approved by the Common Council

have been extended, and set down in a separate column thereon:

Resolved, That said roll and the assessments thereon as so extended and set down be, and the same are, hereby approved, and confirmed, and the said sums are hereby levied and assessed against said lots and premises respectively, and the collection thereof is hereby directed.

STREET RAILWAY  
FRANCHISE AS  
IT WOULD STAND  
IF AMENDED  
IN ACCORDANCE  
WITH PROPOSED  
AMENDING  
ORDINANCE

On motion of Alderman Ward, the recorder, was directed to cause to be printed in the minutes of this session the original street railway franchise ordinance as it would stand if amended in accordance with the proposed amending ordinance, which ordinance as proposed to be amended is as follows:

An ordinance to authorize certain persons to locate, construct maintain and operate street railways, either by electricity or horse power, on certain streets and avenues of the City of Marquette.

It is hereby ordained by the Common Council of the City of Marquette:

Section 1. That permission and authority be granted and vested in James Connolly, Timothy Weston, F. C. Clark, George Hagen, Joseph A. Valmier, and M. E. Asis, their heirs, successors or assigns, to hereafter construct, maintain and operate a single track railway with all necessary switches, side tracks and curves, upon and along any of the streets or avenues of said city, except as hereinafter forbidden. Provided, however, that all the conditions and requirements of Section 3 of this ordinance shall be fully complied with before such permission and authority shall become vested in said parties.

Sec. 2. Such street railway shall not be constructed nearer to Presque Isle road than one hundred feet except where it may be necessary to approach and use said road in order to cross Dead River and to reach Presque Isle.

Sec. 3. Said parties above named shall construct and have in full operation, on or before the first day of November.

A. D. 1890, one mile of such street railway within the city of Marquette, and on or before July 1<sup>st</sup>, A. D. 1891, to Presque Isle. And said parties or their assigns, shall commence the construction of said street railway in a substantial manner, on or before September 1<sup>st</sup>, A. D. 1890, Provided, that any period during which the said parties or their assigns may be prevented by legal process from constructing such street railway shall be excluded from the time hereby limited for the completion of the work, if said parties shall use due diligence to remove such legal process.

Sec. 4. Cars shall be run regularly at all times upon such street railway except in the winter season, when said parties or their assigns may elect to provide other conveyance for the accommodation of the public in place of their cars. Such other conveyance shall be run upon the regular routes of said railway.

Sec. 5. Said railway shall be constructed under the supervision and direction of the Common Council of said City, or its duly authorized agent.

Sec. 6. The tracks and all structures and appliances of such street railway that may be placed in any street or upon any property belonging to said City, shall be located wherever directed by the Common Council or by its duly authorized agent.

Sec. 7. It is hereby expressly provided, that the Common Council shall have the right, and the Common Council hereby expressly reserves the right, to specify the form, material, and manner of construction of all structures and appliances of said street railway, except track, that may be placed in the streets or upon any property belonging to said City, and also the right at any time to compel a change of either the form or material or both form and material, of any or all of such structures and appliances whenever the need or the convenience of the public may require such change.

Sec. 8. The gauge of said track shall be four feet eight and one-half inches and the upper surface of the rails shall be laid flush with the surface of the street and shall conform to the grades thereof as now established or as they shall from time to time be re-established or altered. When the Common Council shall direct the paving or macadamizing of any street or section of street, in which the tracks of said parties or their assigns shall be, said parties or their

assigns shall bear and pay the expense of the paving or macadamizing, in such manner, as the Common Council shall have directed, of so much of that portion of said street or section of street in width as shall be actually occupied by any of the said track or switches or turnouts, including the ties or other underground structures thereof. When in the opinion of the Common Council, or of the Street Commissioners, the removal of ice or snow from any of the streets is made necessary by reason of the plowing or shoveling out of the lines of track of said road, and shall direct the removal of such ice or snow, said parties or their assigns shall forthwith remove the same; and in default thereof, the City may remove the same and the parties or their assigns shall bear and pay the expense thereof on demand. When the said parties or their assigns for the purpose of laying tracks for such street railway shall enter upon any of the streets of said City which are already paved or macadamized, only so much of said pavement or macadamizing shall be removed as will enable the said parties to properly lay tracks, switches and turnouts, and they must without delay restore the pavement or macadam so removed in as good condition as near as may be as it was before such removal.

Sec 9. The Common Council hereby specifies, with the right to change, as provided in the second clause of Section 7, as follows:

a. That the said parties or their successors or assigns, shall at their own expense keep the space between the rails of their track in good repair at all times.

b. The cars upon said street railway to be propelled by electricity or drawn by animals, shall be used for no other purpose than to transport passengers and ordinary baggage accompanied by passengers, and shall at all times in style, equipment and accommodation be equal to those in use in other cities.

c. Said cars shall after sunset be provided with proper signal lights, shall be heated in cold weather and shall be run at a rate of speed not to exceed six miles an hour within the settled limits of said city, which limits may be defined from time to time by the Common Council; but said cars may be run at a higher rate of speed outside of such settled limits of the city.

d. Each passenger shall be allowed to take free of

Charges such ordinary baggage as he can carry in his hands and not take up more room than he is entitled to for a seat. But the said parties or their assigns may charge such price for other baggage as may be just and reasonable.

Sec 10. The common Council shall have the right to regulate and prescribe the fares to be charged for the carrying of passengers and baggage upon said road and all lines thereof operated under this charter within the city of Marquette: Provided, that the fare shall not be reduced below five cents for an adult or three cents for a child over five years and not over twelve years of age, without the consent of said parties or their assigns, for one continuous ride by each passenger from any point on said road to any other point on said road or lines operated under this charter, but provided, that said parties and their assigns shall furnish for the sum of twenty five cents to each person requesting the same, six tickets, each good for one fare for an adult for one such ride, or ten tickets, each good for one fare for any child not over twelve years of age.

Sec 11. No cars shall be allowed to stop on a crosswalk or in front of any intersecting street, except to avoid collisions or prevent danger to persons in the street. When the conductor or person in charge of any car is requested to stop at the intersection of streets to receive or leave passengers, the car shall be stopped so as to leave the rear platform slightly over the crossing.

Sec 12. Said parties or their heirs, successors or assigns, shall employ careful, sober, and prudent agents, conductors and drivers to take charge of their cars while on the road, who shall use every precaution not to do injury to teams, carriages or persons on foot.

Sec 13. Conductors shall not permit ladies or children to enter or leave the cars while in motion, and shall announce to the passengers the names of the cross streets as the cars reach them.

Sec 14. The cars at all times shall be entitled to the track, and any vehicles which are upon the track of said railway shall turn out when the cars come up, so as to leave the track unobstructed, and the driver of any vehicle who refuses to do so, shall be liable to a penalty of not exceeding five dollars or imprisonment in the County jail for Marquette County, for a period not exceeding ten days, at the discretion of the court, upon conviction.

before any court of competent jurisdiction in the City of Marquette.

Sec. 15. Nothing in this ordinance shall be construed to prevent the Common Council from authorizing the laying down of pavements, water and gas pipes and sewers and repairing the same, or subjecting the streets to any other legitimate use; and said parties or their assigns shall have no claim for damages against said City or any of its public boards, nor against any gas or water company, because of the removal of their tracks or interruption of their traffic for that purpose; provided, the laying down or repairing of the pavement, water or gas pipes, sewers or other public work thereon, shall be done in such manner, as not unreasonably to damage or injure said railway or its use.

Sec. 16. The powers and privileges conferred by the provisions of this ordinance shall be limited to thirty years from and after January first, 1903; provided, however, that the Marquette City and Presque Isle Railway Company, assigns of the parties to whom this charter was originally granted, shall on or before March first, 1903, have filed with the recorder, written acceptance of the amendment of Sections four, eight, ten and twenty of said ordinance granting said charter, as contained in the ordinance amending this section of said ordinance.

Sec. 17. The Common Council reserves the right to grant to any other corporation or individual the privilege and franchise to build, construct and maintain a street railway on any or all of the streets or avenues of this City other than those used by these parties or their assigns by their railway lines, provided said Common Council gives to said parties thirty days notice in writing of its intention so to do, whereupon these parties shall have the first right to construct said line so proposed by filing its written declaration with the Common Council within said thirty days, by commencing said work upon said streets within sixty days after filing its intention so to do, and by completing and operating at least eighty rods of the same in each thirty days after such commencement until the whole of such line shall be completed.

Sec. 18. The Common Council expressly reserves the right to make such further rules, orders or regulations as may be deemed necessary to protect the interests and accom-

modations of the public, in relation to said railway, provided, the same shall not be inconsistent with the rights hereby granted by this ordinance.

Sec. 19. The said parties shall file their acceptance, in writing with the recorder, of said city, within ten days from and after the passage of this ordinance.

Sec 20, Article 1. After July, 1915, said parties or their assigns shall not extend or lay tracks in any street, avenue, or public place in the city without having first obtained the consent of the Common Council, thereto anything in Section one of said ordinance granting said charter to the contrary notwithstanding.

Article 2. This ordinance shall not become operative until second adoption and approval thereof pursuant to the thirty-fifth subdivision of Section twenty-eight of the charter of the City of Marquette, and said Sections four, eight, ten and sixteen shall become operative July 1<sup>st</sup>, 1915.

Article 3. This ordinance shall not be and remain in force and effect after January, 1904, unless prior thereto there shall have been filed with the recorder, a statement, verified under oath of the president and secretary of said Marquette City and Presque Isle Railway Company that there has been expended during the year, 1903 the sum of \$25,000 in improvements of track, rolling stock, machinery and buildings of said Company in this City.

Sec 21. The right to amend or repeal this ordinance in case of non-compliance by said parties, with any of the terms hereof, is expressly reserved to the Common Council of the City of Marquette.

Sec 22. Any provision of any former ordinance inconsistent with this ordinance is hereby repealed.

The Council then, on motion, adjourned.
