The City of Marquette Ordains:

Section 1. That sections four, eight, nine, ten, sixteen and twenty of an ordinance of said City entitled, "An ordinance to authorize certain persons to locate, construct, maintain and operate street railways, either by electricity or horse power, on certain streets and avenues of the City of Marquette" adopted July 14, 1890, be and the same are hereby amended so as to read as follows:

The gauge of said track shall be four feet eight and one-half inches, and the upper surface of the rails shall be laid flush with the surface of the street, and shall conform to the grades thereof as now established, or as they shall from time to time be re-established or altered. When the Common Council shall direct the paving or macadamizing of any street or section of street in which the tracks of said parties or their assigns shall be, said parties or their assigns shall bear and pay the expense of the paving or macadamizing, in such manner as the Common Council shall have directed, of so much of that portion of said street or section of street in width as shall be actually occupied by any of the said track or switches or turnouts, including the ties or other underground structure
