The following petition of John Kerron and 181 others was presented and referred to the committee on public health:
To the Honorable Mayor, Common Council, and other officials having charge of the water supply of the City of Marquette:

The undersigned residents of this City of Marquette earnestly petition you to forthwith take such action, legal and honorable, as will secure to us and our wives and little children a supply of pure water, with an unlimited supply close at hand, and we paying water rates and taxes, we feel we are entitled to at least some consideration in the matter.

The following petition of S. B. Jones and 283 others was presented and referred to the committee on public health:
To the Honorable Mayor and Board of Aldermen of the City of Marquette, Mich.:

We are residents, taxpayers and water rate payers of your city. We pay cheerfully our water rates. An abundance of pure water can be had- it is close at hand, placed on earth for our use by our Creator, it is as necessary for our existence as pure air, but we are not furnished it. What is furnished us and what we pay for is unfit for use.

PURE WATER
SUPPLY.

We therefore petition you to forthwith take such action as will insure to the people of this city one of the greatest blessings: a plentiful supply of pure water.

REPORT OF

COMMITTEE

OF THE WHOLE

PURE WATER

SUPPLY.

After some time spent therein the committee arose and through their chairman, Alderman Ball, reported as follows:

To the Common Council:

Your committee of the whole have had under consideration the contamination of the water supply caused by the discharge of the furnace refuse into the lake, and respectfully recommend:

1. That the report of the committee on public health submitted at the last session relative to construction of filter, be accepted and adopted.

2. That the Board of Fire and Water Commissioners be respectfully requested to submit to the electors as soon as practicable the question of the extension of the

PURE WATER

SUPPLY

water works intake.

J. E. Ball,
Chairman.

On motion of Alderman Ball, supported by Alderman Word, said report was unanimously adopted.

Thereupon the said report of the Committee on public health was submitted and unanimously adopted, which report is as follows:

PUBLIC HEALTH

COMMITTEE

REPORT ON

WATER SUPPLY

RECOMMENDING

FILTRATION.

ADOPTED.

To the Common Council:

Your committee on public health respectfully report that they have had under consideration the communications from the Pioneer Iron Company referred to us at the last session of the council, and we recommend that said communications, which are herewith submitted, together with the plans and specifications for filter accompanying the same be placed on file.

We are of the opinion that the proposal of said company to pump the furnace refuse into the present sewer system to be objectionable; and the subject of the extension of the water works intake is a matter for the consideration of the fire and water commissioners.

The City has employed a competent chemist to look into the subject of the contamination of the water supply by the furnace refuse and to recommend such means as he deemed best calculated to remedy the difficulty; and after investigation and laboratory experiments in filtration he has advised this council that in his opinion the filtering of the tar from the furnace refuse will remove so much of the material causing the disagreeable taste in the water that the furnace discharges after the dilution by flowing and mixing with the water of the lake will no longer be a cause for complaint and that the water supply will be tasteless and unobjectionable.

We deem this opinion and the remedy suggested of sufficient importance to merit a thorough and practical test, and for that reason we recommend the acceptance of the proposition of the Pioneer Iron Company that a filter be constructed at the joint expense of said company and the city, and we herewith submit and recommend the adoption of the following:

Resolved, That the proposition of the Pioneer Iron Company submitted at the last session of the Common Council, to construct at the joint expense of the said

FILTER WATER
AT PIONEER
FURNACE.

Company and the City, a filter, and the operation thereof by said company for ninety days, is hereby accepted and said company is requested to construct said filter at once in accordance with the plans and specifications therefor, accompanying said proposition.

Your Committee further recommends that pending the construction of such filter and the experiments therewith, and the tests about to be made by the by the fire and water commissioners to determine the advisability of the extension of the water works intake, that the amendment of section thirteen of the ordinance relative to nuisances be amended to take effect July 1st, 1905.

Respectfully submitted,

BOARD OF
FIRE & WATER
COMMISSIONERS
EXTENSION OF
WATER WORKS
INTAKE.

The following communication was read and ordered placed on file:

Marquette, Mich., March 28th, 1905.

To the Honorable Mayor and Common Council of the City of Marquette:

Gentlemen - The Board of Fire and Water Commissioners, in reply to a resolution of your honorable body, passed on Feb. 20th, requesting this board to submit to the electors as soon as practicable the question of the extension of the water works intake pipe, beg leave to state that before doing so they deem it best to obtain greater knowledge than they now possess, as to how far it would have to be extended to be free under all conditions of wind and water from the creosote taste which we now have from time to time in the water.

Without doubt, at times the taste is to be found along distance from the shore, as upon our occasion at least, since placing the small pipe in the lake, which is about 3,500 feet out and in water 69 feet in depth, the taste was pronounced in the water drawn from this pipe.

For this and other reasons this board is of the opinion that it is best to postpone the submission of this question to a later date.

Respectfully,

Board of Fire and Water Commissioners,
By E. B. Palmer, Pres.

LIQUOR BOND
