

OFFICIAL PROCEEDINGS OF THE CITY
COMMISSION.

December 24, 1931.

At the regular meeting of the City Commission, held on December 24, 1931, at 8:00 o'clock, P. M., in the City Auditorium, the following members were present: Mayor Hubert, Messrs. Aldermen, Messrs. Commissioners, and Messrs. City Clerk and City Engineer.

The Mayor, after calling the meeting to order, announced that the City Engineer had submitted a report on the condition of the City's water supply, which was read and approved. The report stated that the water supply was adequate for the present, but that it was necessary to make certain improvements in the future. The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's sewerage system, which was read and approved. The report stated that the sewerage system was in good condition, but that it was necessary to make certain improvements in the future.

The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's streets, which was read and approved. The report stated that the streets were in good condition, but that it was necessary to make certain improvements in the future. The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's parks, which was read and approved. The report stated that the parks were in good condition, but that it was necessary to make certain improvements in the future.

M. A. HOGAN
City Clerk

The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's public buildings, which was read and approved. The report stated that the public buildings were in good condition, but that it was necessary to make certain improvements in the future. The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's public works, which was read and approved. The report stated that the public works were in good condition, but that it was necessary to make certain improvements in the future.

The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's public utilities, which was read and approved. The report stated that the public utilities were in good condition, but that it was necessary to make certain improvements in the future. The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's public safety, which was read and approved. The report stated that the public safety was in good condition, but that it was necessary to make certain improvements in the future.

The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's public health, which was read and approved. The report stated that the public health was in good condition, but that it was necessary to make certain improvements in the future.

The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's public education, which was read and approved. The report stated that the public education was in good condition, but that it was necessary to make certain improvements in the future. The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's public recreation, which was read and approved. The report stated that the public recreation was in good condition, but that it was necessary to make certain improvements in the future.

The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's public finance, which was read and approved. The report stated that the public finance was in good condition, but that it was necessary to make certain improvements in the future. The Mayor then announced that the City Engineer had also submitted a report on the condition of the City's public administration, which was read and approved. The report stated that the public administration was in good condition, but that it was necessary to make certain improvements in the future.

M. A. HOGAN
City Clerk
