Mr. H. E. Patrick, Commissioner City.

Dear Sir:

We are having a great deal of trouble with the sanitary sewers within the city. Unforeseen things are happening right along, due to being poorly laid in the first place, causing broken joints, roots and sand get in and finally causes a break in the street. At the present time we have the same condition on East Ridge street. Two hundred reel of sewer has caved in. The same has to be relayed with new pipe. The old sewer trench was blasted in rock and laid without a sand cushion.

During the summer and early fall we will have about six or seven weeks of work cleaning the sewer mains as not very much of this work was done last year.

Yours very truly,

C. J. Anderson,  
Acting Superintendent.
