And resolved that the Commission has estimated the revenue which will be forthcoming during the current year and has determined the amount necessary to balance the budget to be the sum of \$411,131.09 of which the sum of \$219,424.36 is hereby fixed as the amount to be raised for school taxes, the sum of approximately \$13,500.00 (estimated 1 1-2 Mill Tax) is hereby fixed as the amount to be raised for Library taxes, the sum of \$89,000.00 is hereby fixed as the amount to be raised for

general city taxes, and the sum of \$89,206.73 is hereby fixed as the amount to be transferred from the utility funds for general city purposes; and it is hereby declared that if such budget estimates are adopted in the annual appropriation bill, the unappropriated cash balance in the utility funds at the close of the year is estimated to be the sum of \$100,000.00.

And resolved, that this Commission do meet on Monday April 22, 1946, at 7 o'clock P.M. for public

hearing upon said estimates and for the passage of the annual appropriation bill; and that the City Clerk publish said estimates and notices of said hearing, as required by the City Charter.

This resolution signed by:

L. W. BRUCE  
Commissioner  
LEE MCGINLEY.  
Commissioner

Yeas — Mayor Beckman, Commissioners Bruce, McGinley, Schneider and Tierney.

Moved by Commissioner Schneider, supported by Commissioner Bruce, and adopted, that the following report presented by Commissioner McGinley be incorporated in the minutes of this meeting.

The original estimates as submitted by city department heads called for expenditures of \$951,595.96. To these it was necessary for the commission to add the necessary amount to cover wage increases and employees' pension fund contributions. On the other hand, during the course of the budget meetings parings were made wherever practicable in the various departments. The final budget estimates as adopted by the commission provide for expenditures of \$950,212.69, which is \$1,383.27 less than called for in the original estimates.

Toward balancing the budget, the city has \$237,300.50 in the special reserve fund which was built up during the past three years. After applying this entire reserve to the 1946 budget, it was found by the city commission that in order to maintain a working capital of \$100,000 it would be necessary to levy city taxes in the sum of \$89,000. The largest single items of expenditure in the final budget is \$288,000.00 for new Diesel construction.

Based on an anticipated assessed valuation of \$9,000,000 for 1946, the final budget estimates indicate tax levies as follows, showing comparative figures for the year 1945:

	1946	1945
School taxes ....	\$24.38	\$17.61
Library taxes ....	1.50	1.50
City taxes .....	9.89	4.31
Total .....	\$35.77	\$23.42

**Official Proceedings of the City Commission**  
—Continued.

The estimated increase in tax rate of \$12.35 per \$1,000 will be represented by \$6.77 increase in school taxes and \$5.38 increase in city taxes. Each dollar collected in taxes for 1946 will be distributed 68.2% to the schools, 4.2% to the library, and the balance of 27.6% will be available for general city operations.

Yeas — Mayor Beckman, Commissioners Bruce, McGinley, Schneider and Tierney.

Moved by Commissioner Schneider, supported by Commissioner Bruce, and adopted, that Howard Greene, superintendent of the water department, be given an increase in base pay of ten dollars per month.

Yeas — Mayor Beckman, Commissioners Bruce, McGinley, Schneider and Tierney.

Moved by Commissioner McGinley, supported by Commissioner Tierney, and adopted, that the report of the payroll committee be incorporated in the minutes of this meeting.

After several meetings the City Commission, acting as a committee of the whole, has unanimously arrived at the following decisions with respect to recent petitions for equalizing pay of firemen and policemen, and for granting a raise of \$30 per month for each city employee:

1. The employment code shall be amended to prohibit firemen from performing work for other employers, for compensation, when off duty, except for minor jobs which may be approved by the fire chief, such as washing windows.

2. The base pay of each member of the fire department shall be increased \$15 per month, effective April 1, 1946.

3. The base pays of all employees, other than members of the fire department, shall be increased \$10 per month for salaried employees and 5 cents per hour for employees on an hourly basis, effective April 1, 1946, with the following exceptions:

(a) The salary of the municipal judge is regulated by charter and therefore does not come under the provisions of this general raise for city employees.

(b) This increase shall not apply to the Superintendent of Public

Works nor the Superintendent of Light & Power, for the reason that the base pays for these two positions have heretofore been adjusted as of April 1, 1946.

(c) This increase shall not apply to certain part-time or temporary employees, namely, the city attorney, sanitary inspector, volunteer firemen, and life guards.

The effect of these decisions will be to narrow the spread between the base pays of policemen and firemen; to avoid unfairness to returning war veterans and to eliminate other objections to the practice of firemen taking on outside jobs; and, in recognition of increased living costs, to grant a general increase of 6 per cent in city wages. This wage increase, together with the city's contributions to the employees pension fund, will represent a total increase in city payrolls of 16 per cent.

Yeas—Mayor Beckman, Commissioners Bruce, McGinley, Schneider and Tierney.

Moved by Commissioner Schneider, supported by Commissioner Tierney, and adopted, that the recommendations of Dr. C. P. Drury, Health Officer, relative to the control of certain contagious diseases be approved.
