Considerable discussion was had by the Commission regarding the single bid submitted on the Diesel Electric Plant Expansion. Mr. Ackerman, consulting engineer, was asked by the Commission if he had estimated the overall cost of this construction work. Whereupon Mr. Ackerman stated that he realized his estimate of this cost having been made in the fall of 1955, that prices have changed considerably and costs in labor would change his estimate figure considerably. The Commission then decided that time was of the essence in this construction job and being that penalty clauses for unfinished work in the sum of one hundred dollars per day after November 1, 1956, and two hundred dollars per day after January 1, 1957, was included in the specifications. In view of this short construction season, it was decided that the single bid submitted be opened at this time. Mayor Hammerschmidt then directed the City Clerk to open the bid. Following the reading of the bid, the Commission referred this material to

the City Manager, Mr. Ackerman, and Mr. Mosher, who were excused from the meeting to examine the bid.

A public hearing was then held upon the petition filed with this Commission on May 28, 1956, for the rezoning of the south 68 feet of lots 7 and 8 in Harlow's Addition No. 1 on Fourth Street in the City of Marquette from "Single Family Residence District" to "General Business District." WHEREAS, The Assessor has made and duly certified to the Commission a special assessment roll for the following improvements:

The installation of curbing and paving on Prospect Street between Spruce Street and Cedar Street.

RESOLVED, That such assessment roll is hereby approved and that the same be filed with the City Clerk who is hereby directed to give notice to the property owners liable to such assessment, in conformity with the provisions of the City Charter, of the filing of said assessment roll and appointing Monday, July 30, 1956, at seven o'clock p. m. when the Commission and Assessor will meet to review said assessment.

Moved by Mayor Hammerschmidt, supported by Commissioner Halverson and unanimously adopted, that the proposed lease agreement between the City of Marquette and Donald Kroken for the leasing of City owned property

to be used as a site for a boat livery be referred to the City Attorney for study and report.

Mayor Hammerschmidt asked the Superintendent of the Public Works Department, V. E. Swan, if something could be done with the matter of digging up and scattering of gravel material on Presque Isle Avenue while that street is being opened for inspection of the gas mains. It was then suggested by Mayor Hammerschmidt that a meeting of the Gas Company officials and the City Officials be called to see if this situation could not be rectified to eliminate any hazards created by this situation.

At this point in the meeting, City Manager, George T. Meholick, Jr., Superintendent of the Light and Power Department, C. L. Mosher, and Mr. Ackerman, Consulting Engineer of Vogt, Ivers, Seamen and Associates, returned to the meeting and were asked their recommendation regarding the bid on the Diesel Electric Plant Expansion. In view of all factors involved, especially the time limitations, the penalty clauses, the increase in cost of materials and labor, it is recommended that the bid as submitted, be accepted.

It was then moved by Mayor Hammerschmidt, supported by Commissioner Halverson and adopted, that upon recommendation of the City Manager, the Superintendent of the Light and Power Department, and Mr. G. E. Ackerman, Consulting Engineer, the base proposal of the MacDonald Construction Company in the sum of \$316,899 be accepted.

Yeas: Mayor Hammerschmidt, Commissioner Bur and Halverson.
