WHEREAS current highway revenues are inadequate and cannot keep up with the rising costs of road maintenance and construction to meet the present emergency situation or prepare for future needs;

THEREFORE BE IT RESOLVED, that we, The Governing Body of the City of Marquette do hereby endorse and urge immediate passage of those bills known as the "Good Roads Package" that would make the following minimum revisions:

a) add one cent to state gasoline, diesel and liquified petroleum taxes.

Mayor Moore informed the Commission that Mr. Allan F. Olson, Chairman of the Community Center Committee was present and would give the Commission a progress report on the Committee activity to date. He then turned the floor to Mr. Olson. Mr. Olson gave the Commission background information including the names of the members serving with him on the Committee for this project. He stated that the work to be done could best be described by phase 1 being the selection of an architect which would include a determination of the requirements of the building in the rooms needed and other related study work. This in turn would mean a preliminary prospective which would be used in connection with fund raising through the possibility of Federal grants, bonding, programs and other methods. Phase 2 would be the completion of working drawings on the Community Center and Phase 3 would consist of the construction of the project. Mr. Olson reviewed the work of his committee since its inception which included several major areas of study, financial backing from various organizations, the building anticipated use and other aspects of the project. In these studies a great amount of time was devoted to the structure and the needs it

would have to serve, keeping in mind that the use would be by children and people through the Golden Age. With these thoughts in mind the Committee feels that the building should house facilities of Recreation, an Auditorium, meeting rooms to accommodate various size groups, facilities for indoor athletics, locker rooms, etc.

Mr. Moore commended Mr. Olson for the work he and his Committee have done to date and thanked Mr. Olson for his report to the Commission. Mayor Moore and the City Commission agreed that the City is now confronted with the question of whether to appropriate additional monies required to proceed with the specific development plans through hiring an architect. Various Commissioners asked questions of Mr. Olson regarding the amount needed at this time to inaugurate phase 1 of this project. Following considerable discussion on the matter, it was moved by Commissioner Price, supported by Commissioner Rydholm that the City Commission appropriate the sum of \$7,000,000 for the continuation of the studies and planning of the Community Center.

OFFICIAL PROCEEDINGS OF THE CITY COMMISSION

Thursday, March 2, 1967

A Special Meeting of the Marquette City Commission was duly called and held Thursday, March 2, 1967 at 5:00 o'clock, P.M.

Present: Mayor Moore. Commissioners Brumm, Price, Rydholm, St. Cyr.

Absent: None.

Mayor Moore called the meeting to order stating that its purpose was to discuss the relocation of homes north of Northern Michigan University and to establish a policy concerning this project. He then asked that those present wishing to be heard on this matter limit their questions and comments in order that each and everyone would have an opportunity to be heard.

Mayor Moore thanked Monsignor Arnold L. Casanova, Pastor of St. Michael's Church for the interest shown by the public meeting recently held in behalf of the property owners in the area in question. Monsignor Casanova informed the Commission that the Housing Group of the parish could be a sounding board for the people involved in the acquisition area. Interested citizens living in the area asked questions and commented on the plan of expansion. Various Commissioners also commented regarding certain aspects of this proposed expansion program.

Mayor Moore noted that approximately ten per cent of the population of the City of Marquette would be affected under the terms of the expansion (Doxiadis) plan for Northern.

He then related that for this reason the Commission establishes a policy as follows:

1. The first desire is that the Northern Michigan University Board of Control meet with the Marquette City Commission at the earliest possible date to consider changing the expansion

program from an easterly direction to a westerly direction.

2. That representatives of Doxiadis Association hold an open meeting with the residents of the affected area to thoroughly explain the overall plan for the campus.

3. If a move in an easterly direction proves to be the only possible direction of expansion, the Marquette City Commission feels that the following policy should be adopted by Northern Michigan University in regard to both the timing of the expansion program and the treatment of the residents of the affected area.

(a) That the completion date for purchases be extended for a period of one year.

(b) In arriving at a purchase price for each parcel of property special effort should be expended to protect each property owner from losing money, whether he moves his home or razes it.

(c) Funds should be made available to each property owner prior to the acquisition of his property.

(d) That Northern Michigan University should share in the cost of utility and street development in a suitable land area for the property owners being displaced.

Mayor Moore noted that other aspects of a program of this nature may have to be taken into consideration, if it is found to be so then other policy proposals may be incorporated.

Mayor Moore called on City Manager T. R. McNabb to inform those present of the approximate number of vacant lots available in the areas adjacent to the proposed expansion area.

After all persons present wishing to be heard were heard, the meeting adjourned.

EVERETT H. KENT,
City Clerk.
