Resolved, That the city attorney be and he is hereby authorized and directed to institute a suit in the circuit court for the County of Marquette, in chancery, for the enforcement and foreclosure of the lien of all the assessments that are delinquent upon special assessment roll number seventeen for the estimated costs and expenses of the following improvement, to-wit: "To lay a sewer in West Arch Street from the manhole in Third Street to a point five hundred feet west of said manhole", confirmed June 28th, 1897.

x (L) 10/4/07

To the Common Council of the City of Marquette:

Your committee on finance and taxation beg leave to report on the several matters hereinafter mentioned as follows:

With reference to the petition of Mrs. A. Longtime for the remitting of special assessment tax on lot 3 of Block 2, Cleveland Iron Mining Company's Subdivision, for sewer on Rock Street, \$29.09, we recommend that the same be remitted, inasmuch as this lot we find was assessed for a sewer on Front Street by arrangement with the city authorities, which was to be in lieu of the assessment for the sewer in Rock Street, which cannot be used by the occupant of said lot; such action being really to carry into effect an agreement with the city had at the time of the original levying of this assessment.

With reference to the petition of Mrs. Elizabeth Williams for ~~the~~ remitting of \$102.20, taxes and interest on lot 21 of Block 6 Harlow's Addition Number 1, your committee have investigated and recommend that the interest portion of this assessment be remitted, *to-wit, the sum of \$59.39* ~~provided that payment be made of the balance within a reasonable time.~~

With reference to the petition of Mrs. L. C. Mohrman for rebate of sidewalk assessment, we recommend that the time for payment of said assessment be extended sixty days.

With reference to the petition of L.F. Beals and others to be exempted from payment of special assessment Number 25 your committee recommend that the prayer of the petition be not granted.

With reference to the petition of Charles C. VanIder-

stine for an alleged difference in assessment for Prospect Street sewer, your committee finds that the original assessment paid on this property was \$142.41, but that upon representations being made to the common council, on April 5th 1893, there was refunded of this the sum of \$47.47, leaving a balance paid on this assessment of \$94.94. The present assessment, roll eighteen, is for \$122.78, and if the amount paid on the first original assessment, less rebate, be credited thereon, there is now a balance due on this assessment against the property of \$27.84. This sum your committee deem to be properly due and therefore recommend that the prayer of the petitioner be not granted.

With reference to the petition of Mrs. Helen O'Donald asking for rebate of sidewalk assessment, we recommend that the prayer of the petition be not granted.

With reference to the petition of Mrs. Mary Prentice for rebate of sewer assessment, common council have already remitted this assessment.

Your committee recommend that inasmuch as the common council have remitted the interest on special assessments numbered 1, 2 and 3 on the General Tax Roll of this year, the interest portion of such taxes as had been paid be refunded to the parties making such payment, to-wit:

Mrs Elizabeth

James Williams	\$59.39
Jacob P. Werner	\$14.14
Olive L. Harlow	\$35.35
Olive L. Harlow	\$32.80
Barbara Greenwald	.17

Your committee respectfully report that upon a careful examination of the equities involved in the matter of special assessment taxes, they recommend that the policy be adopted by the common council of refusing to rebate or re-

mit special assessments which benefit the property, such as street improvements, sidewalks and sewers. Such assessments are levied upon the theory that the money expended is a direct benefit to the property assessed, and where benefits of this character are conferred by the public, there can be no good reason for relieving individuals from their payment.

We are asked in a number of cases to remit such assessments upon property owned by very aged people, and should such assessments be remitted, it would in effect directly benefit the heirs of such persons upon their death, and such heirs, we think, can very well afford to raise the amount required to pay the assessments to preserve the property from sale.

FACTORY AND MAIN OFFICE,
JAMESTOWN, N. Y.

BRANCHES:
ROCHESTER, N. Y.
DETROIT, MICH.

November, 1897.

To the Honorable,
The Common Council.

Gentlemen:

We have one of our voting machines on exhibition in the First District of the Second Ward, Detroit, Mich. (opposite the Russell House), which was used in last election. We should be pleased to show it to any of your Honorable Body or a Committee, should you appoint one. It will be found a very interesting machine and one that will meet every question that arises on the Australian Ballot, and will correctly record every vote cast. It saves money for taxpayers. It will give you the exact returns in five minutes after the polls close. There can be no recounts or disputes where this machine is used, and this is what your constituents want. After the Inspectors have taken the vote, the registers remain exposed and cannot be changed. Every voter has access to the machine and can see that the Inspectors have tallied the vote correctly.

We have mailed your City Clerk for distribution several Booklets. Read carefully, as they contain statements made by Expert Mechanics whom you will recognize as among the best in the world. After you gentlemen have looked into this matter, we do not hesitate to say that you will commence negotiations with us and equip your city with machines that will make your constituents grateful to you.

Respectfully submitted,

UNITED STATES VOTING MACHINE CO.
