To the Hon. Board of Supervisors
of Marquette County
Gentlemen

We the undersigned tax payers of the township of Crystal Falls, County of Marquette and State of Michigan, pray your Honorable body, in view of the fact that our town board was obliged to lay out our own road

miles of highways in our township during the preceding year which they have to maintain, and as the law does not allow to collect more than one half of our per cent. on the aggregate valuation to be raised for highway taxes, which amount was nearly expended during the season, our three four five four honorables body to donate to our highway fund. Such sum as some as few may deem proper, towards erecting and repairing the three bridges across the Paint river and our bridge across the Bear river all in our township, which were during the last rainy season endangered to such an extent as to demand an immediate expenditure of over two thousand dollars so as to save them from complete destruction which amount our township cannot afford to lay out for state purposes.

The following letter of Cable Peterson
and Baird was received, and referred to the Committee on County
Office Accounts, in connection with the Prosecuting Attorney
Sawney, Mich. Sept. 24, 1884.

B. H. Thayer Esq.

County Treasurer

Marquette County, Mich.

Sir:

Sec. 5. of Act. No. 31, of the session laws of
1858, provided that all moneys received from the sales of swamp
lands should be appropriated to a Swamp Land Fund and the
interest thereon at five per cent was required to be paid over
annually to the board of supervisors of the several counties to be
used in reclaiming swamp lands, etc. This Act has now been
repealed and is still in force. Under its provisions there is money
due your County which on third or last call. Certain of the
counties, on third or last call among the marsh made an effort some
eight years ago to secure this money, but for some reason, without
success.

We will enter into a contract with your County to
collect the same, upon such terms as shall be agreed upon
and such an arrangement can be made that will be mutually
advantageous. Will you please submit this proposition to
your board of supervisors at its next meeting, and if thought

back have a resolution passed authorizing you to enter into a contract with us. We suggest that action be taken at as early a day as possible, because if we find it necessary to apply to the Supreme Court we shall be glad to do so at the October term.

Our early reply will oblige

Yours etc.

Report of Special Committee

The special Committee on the application of Edward E. Hardy Judge of Probate for Pin Standard, Dallas & Co. Compensation, for extra work and clerk hire, respectfully report the Committation of the Judge of Probate to attach to the report a recommendation for consideration by the full board.

Oct. 13, 1884.

F. C. Clark, Chairman
Edward Clark

To F. C. Clark, E. Clark & E. B. Honable
Special Committee No.
Dentlemen

In the matter of \$500 allowance as body & compensation for Judge of Probate for extra expenses incurred by him, said Judge during his period of service as Judge which was referred to you as a special Committee to report thereon. I would respectfully state; that for the last two years past my health has been such coupled with advancing years (76 years) I have been compelled under such disability to avoid any active work in the duties pertaining to my office so that on only claiming from the Probate Judge should suffer, and would be incriminated by my ailments, those extra expenses there being a personal matter no expenditure in detail was kept by me, consequently I cannot give you as asked for a detailed statement of same, and such therefore must depend upon a guarantee of honor with myself and I will add (under my oath) did I not think that my request was honest and just and deserving, it would not be made. I will further say that there are two other points that may be made in support of the same, viz:

1st On the 1st of Jan. last of my service at the Annual Meeting of the Board of Supervisors at that time no action was taken fixing the salaries of County officers or Probate Judge, but they did at that meeting in January following fix the salaries in question (Mr. Roulund, taking a part therein) and reduced all the salaries except that of Mr. Roulund and that was increased from \$1200 to \$1800 and the Probate Judge reduced from \$800 to \$1000. afterwards raised to \$1200. It is true I had my remedy under the rulings of the Supreme Court but did not avail myself of it for the reason Mr. Roulund said

it would be arranged satisfactorily and I therefore delayed the application for relief; the prevailing view was that the pay of a Judge of Probate cannot be reduced during the term of his service or after he has entered upon his duty. Which ruling is familiar to one of four Commissioners - F. C. Deland. Esq. and such deficiency in pay has never been paid. Now, I admit that had the amount of salary been stated at the Annual meeting of the board, and before I was called upon to enter the office that had I entered upon the duty under that provision I should be bound, as I am that was the compensation.

The Annual allowance of \$1200 for the furnishing of blanks, Stationary & Postage etc has not been sufficient to meet the requirements in that particular and has been sufficient to supply the demand for several years past.

If I did not or do not consider my claim to be one of Justice I would not present the same.

Very respectfully Yours

Edmund J. Hardy

Judge of Probate

Which report was accepted.

and ordered placed on file

On motion of Supervisor Warner the claim of Judge Hardy for extra compensation was disallowed.

The Special Committee on Salaries of County Officers respectfully report that they recommend that the salaries of the officers be as follows for the incoming term.

May, 1890

The Special Committee to whom was referred the petitions of Winbigammar^{and} Humboldt townships, for aid in constructing roads and bridges reported as follows:

To the Board of Supervisors
of Marquette County,

Gentlemen: Your Committee to whom was referred petitions from Humboldt^{and} Winbigammar townships, the former asking aid from the County to the amount of \$1000 in constructing a bridge across the Winbigammar river, in that township; the latter asking that Winbigammar township be reimbursed for by the County to the amount expended by that township in protecting the bridge across the Lake Superior river, respectfully report that they have personally inspected both localities.

In the case of Humboldt township, they find that township engaged in building a road across the western end of the township, a distance of fifteen miles. This road when completed will connect the townships of Crystal Falls^{and} Franklin with the northern part of the County with the M. & C. railroad at Republic.

The expense assumed by the township in building the road is large. Such a bridge as it is proposed to build at the point where this road crosses the Winbigammar river will cost from fifteen to twenty hundred dollars and will be of benefit not only to Humboldt township but to the entire western end of the County.

In the judgment of your Committee the requirements of the law have in this case been met; the case is one which fully justifies this board in granting aid; and it therefore reports in favor of granting the petition and that the same asked for be paid from the money now in the Highway fund.

In the case of Winbigammar township, your Committee find that the County aided originally in the construction of the bridge mentioned in the petition; and that the cost of the work done in protecting the bridge did not, or should not have exceeded, one hundred and fifty dollars; and that this was the chief expenditure of the township for highway purposes during the year.

It is the opinion of your Committee that the petition should not be granted.

Peter Pascoe }

The petitions referred to in the above reports are as follows
To the Board of Supervisors

of Marquette County

We, the Township Board of the Township of Winton-
hamm in the County of Marquette respectfully represent
to your Honorable body that the public bridge which crosses Peshawar
River on state part of the County road lying within this Township
was and has been in much danger from logs which were floated
down said river, by parties engaged in logging on said river
above said bridge.

That owing to the danger to the said bridge from logs and
timber floated down said river and to insure the safety
of said bridge and to prevent the same from being carried
away this Township was compelled to expend a large sum
of money that is to say the sum of five hundred dollars or
thereabouts in labor and materials for said bridge.

That said County road on which said bridge is located
is the only Public Highway leading into or out of our Township
and had not much outlay been made and said bridge
strengthened and protected there was great danger of its being
carried away and the only thoroughfare into our Township
entirely closed to the public.

We would therefore ask your Honorable body to grant and
aid in paying for said work on said bridge we
shall be equitable and just toward this Township

John P. Christopher - Supervisor

Edwin Johnson - Prop. Clerk

Living A. Barrett. Justice of the Peace

Dated at Wintonhamm this 22 day of August 1884

To the Board of Supervisors
of Marquette County.

Gentlemen

The Township Board of the Town-
ship of Humboldt in said County respectfully ask of your
Honorable body an appropriation of the sum of one thousand
and dollars to aid in building a bridge over the Wintonham
river in Sec. 3, in Town 25 North, Range 23 West, on the

highway leading from Republic & Crystal Falls manufacturing
plants. This road, while of comparatively little value to the
township of Humboldt will prove a great convenience to the
residents of the lower part of the County, in reaching the County
seat. And some petitioners will now pray

Edmund A. Mass, Supervisor
James L. Cox Township Clerk

We hereby certify to the Board of Supervisors
of the County of Marquette, that a contract has been let
for payment to the provisions of certain shares of the law of the year
A.D. 1881, of this State, for the building of a bridge over the Minnigam-
ow River in Township of Humboldt and that the amount
of the contract for building the bridge and filling the abutments
is \$14000

The majority of the Special Committee to whom was referred
the petitions of the citizens of Plover, Poreyth, Chorolew and Richmond
Townships reported as follows:

To the Board of Supervisors
of the County of Marquette
Gentlemen

Your Committee to whom was refer-
red petitions from the townships of Plover, from the townships of
Chorolew and Poreyth, and from the townships of Chorolew, Richmond
and Nyanamow, the first asking aid from the County in building
a wagon road which will connect the settlement at Plover with
the Little Lake road, a distance of eight miles; the second ask-
ing aid in opening a road along the lower line between
the townships of Chorolew and Poreyth, from the present terminus
of that road, a distance of eight miles; the third asking
aid in opening a road from Cascade Junction on the C & N.
W.R.R. northward, along the west side of Goose Lake to the
southern limits of the City of Nyanamow, a distance of five
miles, respectfully report that they have considered each
petition being assisted by diagrams and maps showing
the line of the proposed roads in each case.

Your Committee believing that the settlers in this portion
of the County are fairly entitled to the assistance asked and
that an action of this board can take will be more surely
followed by good results to the County at large, than such

as will open up and encourage the settlement of this, the richest agricultural portion of our County.

They therefore report as follows:

In the case of the road from Pinus to the Little Lake road, the estimated cost of building wharves is \$125. per mile they recommend that there be appropriated to aid in its construction, to be paid out of moneys now in the general fund the sum of \$500.

In the case of the town line road between Forestburg and Choctaw townships the estimated cost of building wharves is estimated \$75. per mile, they recommend that there be appropriated to aid in its construction, to be paid out of moneys now in the general fund the sum of \$300.

And in the case of the road from Canard Junction to the City of Algona the estimated cost of building wharves is \$150. per mile, they recommend that there be appropriated to aid in its construction to be paid out of moneys now in the general fund the sum of \$500; the amount recommended in each case being about one half the estimated cost.

And your committee further recommends, in case of the adoption of this report, that the sum above mentioned be paid by the County Treasurer, upon presentation of a statement showing the amounts, character and cost of the work done, which statements shall be certified by the Supervisor and highway commissioner of the township in which the work has been done.

A. E. Warner }
Joseph Austin } of Special Committee

The minority of said committee reported as follows.

Report of Special Committee

To the Board of Supervisors
of Marquette County,
Gentlemen

Your Committee to whom was referred the petitions of W. F. Roberts and others of Crystal Falls Township asking aid from the County to build a highway from of such a length as you deem proper, to assist them in crossing the three bridges across the Paint river and the one across the Iron river would respectfully report that they inspected the bridges over the Paint river referred to by the petition but not the one on the Iron river that having been secured. We found that they had three good bridges across the Paint, all of which are constantly under repair, and a necessity to that part of the County. These bridges are not properly secured against the danger of floating logs down the river. They will have to be built back heads at each bridge, and having learned that since the Committee was there the township had arranged with the lumbering companies to secure the two upper bridges, and had let a contract to build the two lower heads at the same bridge at a cost of \$1,344. We your Committee taking into consideration the above facts and also that the available funds of the township have been nearly used in making roads and bridges would recommend that the sum of one thousand dollars be given them to aid in securing the lower bridge and that the same be paid from general funds upon the presentation to the County Treasurer of certificates signed by the Supervisor and Highway Commissioner of said township that said work has been performed.
