and have interviewed quite a number of interested parties, and while there are many reasons for granting the prayer of the petitioners, and in the opinion of your committee the time is not far distant when a new township should be organized from the township of Chocolay, yet we believe the erection of a new township upon the lines indicated in the petition would not be the wish and desire of a majority of the freeholders of Chocolay township, and therefore recommend that the prayer of the petitioners be not granted, believing such action will cause a full discussion of the subject by all parties in interest, and enable them to come before this board at some future time with a petition representing the views of a larger proportion of tax payers of these townships.

point to the Moore-Benjamin combination as the one directly threatened, but it is understood that if that goes down it will carry with it Burton and his associates. The statement is freely made that the efforts of Moore, Benjamin & Co. to bridge over their financial difficulties have failed completely, in which case disaster is inevitable.

The sale of their interest in the Aurora mine—the best property in their possession—denotes that Moore, Benjamin & Co. are sorely in need of funds, and tends to confirm the rumor that they have "lost their grip" on the immense interests that they secured control of while the boom in Gogebic mining properties was at high tide. They probably sacrificed this property in the hope of being thus enabled to save the others in which they are interested, but if the reports mentioned by the Oshkosh paper's informant are well-founded, they are menaced with utter ruin.

The MINING JOURNAL earnestly hopes that the catastrophe which appears to be hanging over the Gogebic region may be averted, but it has not been free from a fear that just such trouble would result from the reckless operations carried on in mining properties there last year, and previously, by mere adventurers, who used the reputation of a few really valuable mines to float the stock of innumerable mining companies, flooding the market with securities representing entirely worthless properties.

A BUSTED BOOM.

Perhaps the most dilapidated boom in the country to-day is that which was at its highest point of inflation about a year ago, and had for its foundation the possibilities lying dormant in undeveloped iron properties on the Gogebic range. Its condition is told in the following extracts from Yenowine's News, of Milwaukee—which city was extensively worked by the Gogebic boomers, and where thousands are now mourning the blind confidence with which they invested their money in the stocks of "wild-cat" mining companies while the craze was on:

The iron mining situation continues to grow worse, if anything, every day. The dozen or fifteen city iron stock exchanges have closed their doors, one by one, and the managers have gone into other business. The hundreds of local stock-holders in the Burton and Benjamin properties are quietly waiting for the dates when the new syndicates agree to pay them money for their stock. A good many well posted iron men who are not in these deals tell me that they believe the syndicates will tender new stock and not money for the original stock. If such proves to be the case there will be a terrible howl along the whole line.

The original stockholders in the different mines want money—they don't want the new syndicate stock for the old that they have surrendered in trust. Thus far I have not heard of the syndicates raising any very great sums of money, either in the east or abroad, with which to buy up the old stock. I sincerely trust, for the sake of the city, the state at large and the hundreds of poor fellows who have put all of their money into these stocks that the syndicates will raise the funds necessary to carry out their plans and to pay the prices agreed upon to the holders of the original stocks. I haven't heard much about Burton's plans and properties lately. All of the Moore and Benjamin mines, with the exception of the Aurora, have been compelled to shut down for lack of funds to operate them. The firm claims to hold large amounts of gilt-edge notes, given by the purchasers of ore, but they cannot realize another cent on this paper for the present. They have advanced \$300,000 or \$400,000 to keep the mines going, but had to shut down a few days ago, as no more money could be raised to carry on the work. It is said that the new syndicate will take charge and furnish the means to operate the mines within a few weeks, but I don't take much stock in this statement.

In the meantime hundreds of miners have been thrown out of employment, winter is at hand and the outlook on the Gogebic is anything but rosy. Many of the companies which have been digging for ore owe large sums to their employees, and as scores of other alleged mines and explorations have been entirely abandoned during the fall, the army of idlers and unpaid workmen has been growing by degrees until it is now very large. What the outcome of all this trouble will be I can't imagine. The Colby News has published

The following petition was presented to the Board.

To the Honorable Board of Supervisors
of Marquette County

The undersigned respectfully rep-

work done in this project it is of considerable importance
to the interests of the County of Marquette that the highway from the
Pondus Mill on Dredg river to St. Louis Mill now Little Presque Isle
be extended to South's Crady. And that from South's Crady to South
Pondus Mill bridge be put in fair repair for travel.

If this should be done it would open up a valuable
road of travel for settlement and other business interests.

That there are extensive mineral deposits that could be
easily reached by such a highway, is quite well understood
and has been well assumed that the County would receive a
return by way of taxation upon increased production of
many kinds the appropriation asked for in a very few
years. We are owners of land situated along, and in
the vicinity of the route above indicated and believe that such
a road is greatly needed. In consideration of the premises
we are respectfully request from honorable board to ap-
propriate the sum of ten thousand dollars for the above
purpose or such sum as may seem proper. And your
petitioners will say pay etc.

November 29, 1889.

Mine Inspector Broad submitted his annual report, given below, which was accepted and adopted and ordered placed on file by vote of the board:

To the Board of Supervisors of Marquette County:

GENTLEMEN:—In compliance with the act governing my appointment as mining inspector, I herewith submit my second annual report. In the absence of any prescribed form by the law, I have had blanks prepared, one of which is filled for each mine or quarry, the vital statistics, being those carefully kept by me during the year, and which are herewith filed.

My visits to the various mines during the year have been governed by the conditions of the several properties, and have been as frequent as official attention seems to have been demanded.

It affords me great pleasure to report that the several managements have strictly complied with all requirements of the mining law, and in most instances have taken extraordinary precaution for the security of their respective mines—in a number of cases exceeding the real contemplation of the law.

I have attended all inquests held, and from a careful consideration of the evidence adduced, have coincided with verdicts which have, in every instance, exonerated the mining companies from all blame.

In summarizing the accompanying report it will be found that of the forty-seven iron mines, eight gold mines and two stone quarries, employing 10,047 men, there were but thirty fatal accidents, which shows a gratifying decrease in the fatality as compared with the report of last year, being but about one-half the per cent.

All of which is respectfully submitted.

ANTHONY BROAD,
Mine Inspector, Marquette County.

To the Honorable Board of Supervisors of the County of Marquette, Mich.:

The Peshekemee River Improvement Co. by Frederick W. Read, the president of said company and general manager of its affairs, will respectfully petition your honorable body that the said company be allowed to make further improvements than those previously directed upon the Peshekemee River, for the purpose of assisting in the rafting and driving of logs upon said river over the territory covered by the charter of the said company, and within the limits of this county; said company being organized under the statutes of this state, in such cases made and provided, which statute authorized the formation of a corporation for the purpose of improving the navigation of rivers.

And that your petitioner be allowed to erect such dams and such improvements over the entire territory covered by the said charter as shall be necessary and convenient for the assistance of the floatage and driving of logs upon the said streams over said territory; and in addition to, and beyond the improvements already made by the said company, all of which is respectfully submitted.

PESHEKEMEE RIVER IMP. CO.,

The following resolution relative to the petition was referred to the prosecuting attorney with instructions to report at next meeting.

WHEREAS a petition has been presented to this body by the Peshekemee River Improvement Company, petitioning this body that the said company be allowed to make further improvements than those previously directed upon the said river, for the purpose of assisting in the rafting and driving of logs upon the said river over the territory covered by the charter of the said company, and within its limits in this county.

And whereas it appears that the said river empties into Lake Michigan, in this county, and runs northerly across Townships 48 and 49 North, Range 30 West, to the County of Baraga. And that the charter of the said company covers the river and its main branches across the said townships.

Resolved, That the prayer of the petitioner be granted, and that the said company be permitted to make such further improvements of the said river as shall be necessary to facilitate the rafting, driving and floatage of logs and timber upon the said river, so far as said river is within the limits of this county.

JOS. KIRKPATRICK.

MARQUETTE, Oct. 4, 1890.
 To the Honorable the Board of Supervisors of Marquette County, State of Michigan.

GENTLEMEN:—I have the honor to submit herewith our annual report of disbursements from the poor funds during the year ending September 30, 1890:

Order drawn in favor of poorhouse..... \$5,455 14
 Order drawn in favor of T. R. 1st district..... 2,785 38
 Order drawn in favor of T. R. 2d district..... 14,612 68

 Poor house Cr. by cash from Alger Co..... \$72 90
 Balance..... 32,550 39
\$32,428 39 \$32,428 39

The disbursements in the First district cover the following supplies on hand:

250 cords of wood.
 300 bushels potatoes.
 10 " carrots.
 10 " beets.
 10 " turnips.
 1,000 heads cabbage.
 10 tons hay.
 10 " coal.

The aggregate expense for the year just past is two hundred and fifty-nine 50/100 (\$259.50) dollars in excess of the preceding year. Still, I take pleasure in respectfully calling your attention to the fact that the expenditures in the first district, which includes the poorhouse, is only \$8,168.52, as compared with \$10,113.31 for the preceding year, showing a decrease of \$1,744.79 in expenditures in said district during the year ending September 30, 1890. In respectfully calling your attention to the above fact, I lay claim to nothing more than duty performed, at the same time if your honorable body should feel magnanimous enough to grant me a small additional compensation for past services I assure you it would be gratefully appreciated.

Notwithstanding there is a surplus to the credit of the poor fund to the amount of \$2,649.61, I would respectfully recommend that the appropriation for the ensuing year be the same as last, \$35,000, believing a surplus better than a deficit.

All of which is respectfully submitted.

 Secretary Poor Board.

The annual report of the sheriff was received, accepted and ordered placed on file.

The report of the mine inspector was received, accepted and ordered placed on file.

To the Honorable Board of Supervisors of Marquette County:

GENTLEMEN:—In submitting my annual report as inspector of mines, it affords me the highest satisfaction to say that there has been a substantial decrease in the number of casualties as compared with the record of any former year. This decrease is marked, and in my opinion may be ascribed to the increased care of the employees and the improved equipments of mines, and of the methods of management. By way of making the report comprehensive in general and in detail, I have prepared blanks, one of which is used in connection with each mine; showing the date of the accident, name of person, occupation, cause, nationality and nature of injury. In a compilation of these various reports the result is reached that of the 12,000 men employed in and about the mines of the county there were but forty-five fatal cases, and five permanently disabled, a record that may be pointed to with the greatest confidence, and one

which will compare favorably with that of any of the industries employing alike of skilled and common labor. Having examined every mine of the county this last year carefully, I am especially gratified to be able to state that there has been no failure on the part of any mining company or mine owner in supplying any demand that might in the least contribute to the safety or healthful condition of the respective mines.

Without being able to report cases of neglect or of making suggestions of importance, this report is herewith respectfully submitted.

ANTHONY BROAD,
 Inspector of Mines.

Negaunee, Oct. 1, 1890.

 Superintendent of the Poor.

A communication from the board of corrections and charities was received, accepted and ordered placed on file.

To the Honorable, the Board of Supervisors, Marquette Co., Mich.

GENTLEMEN: In pursuance of my official duties, I visited in June last, your poorhouse. I found it in a very clean and orderly condition; the keeper and matron well fitted to their positions, and maintaining the house in a most excellent manner. The house itself, however, is an old one, and was so planned that the proper separation of the sexes is impossible. This is a thing which should be provided in every poorhouse, and is particularly necessary in yours, because of the character of certain inmates. I would respectfully suggest that this old, poorly planned, and illy constructed house, be replaced by a new one more in keeping with your prosperous county.

By order of the board.
 Yours respectfully,
 L. C. STORRS, Secretary.

			To the Board of Supervisors, Marquette County Mich.—GENTLEMEN:		
			At the July, 1890, meeting of the board the sum of \$25,000 was appropriated for the purpose of repairing and improving the road to the Salmon Trout River, and the undersigned was appointed a committee to supervise the work, and would now report that the repairs were completed to that portion of the road lying between the bridge across Dead River, at the powder mills, and the Sault Head River crossing, beyond which point a fair road existed, and it was not deemed advisable to use any portion of the money appropriated beyond the point named. That bridges were constructed over the streams known as Compeau's Creek, Harlow Mill, Little Garlick and Sault's Head or Big Garlick rivers. These with the aid of some corduroy and the breaking up of numerous boulders has made the road fairly passable. The road for some miles passes over a rough, and in parts, rocky surface and it would require the expenditure of a much larger sum of money to make this what might be termed a good road. But with the work now accomplished the township through which the road runs will be enabled from their township funds to keep the road in fair shape.		
			Your committee would therefore request that an order be drawn for the sum of nineteen hundred dollars and ninety-eight cents (\$1,909.88),—being the sum expended as per vouchers in the hands of the county treasurer—upon the general fund of the county and your committee discharged.		
			Respectfully submitted,		
			E. B. PALMER, Committee.
