

The Casey Lake Road, (CF, FFG & FNN) was rough graded for 3.5 to various widths.

Grading on the streets of the Plat of Palmer was completed and 80 per cent of the total street mileage or 1.85 miles was covered with crushed gravel to a surface width of 31 feet.

Road 456 to a width of 24 feet was covered with bituminous road surface for a distance of 3.5 miles. This work started at Little Lake and extended approximately to the intersection of Road 545. 3,000 gallons of T-3 tar and 640 tons of cover stone was placed on this project.

Road NB was covered with pit run gravel from road 553 westerly for one-half mile. Sands Township participated in the cost of this work.

Bryan Creek road (CCS) was rough graded to various widths to a distance of 2.45 miles from road 581.

Along the streets of the village of Republic two culverts were reset and cleaned and one culvert was replaced.

The repair work on the washouts caused by the heavy rains of the night of August 30 was completed. This work required the placing of 500 cubic yards of earth fill. These washouts also necessitated the placing of 1,524 cubic yards of pit run gravel on various county road surfaces.

On the court house driveway improvement project, the old heat tunnel between the court house and the jail buildings was removed and the concrete floor for the new tunnel was poured. Forms for the tunnel walls were constructed and ready for placement.

At the K. I. Sawyer Airport the addition to the existing office building was completed. This construction work was completed for a total cost of \$772.33 and doubled the floor space for this building.

In cooperation with the County Forestry Commission, 72,000 Jack Pine trees were placed in Section 25, T 46 N R 25 W.

4.0 miles of surface on Road SI was covered and reshaped with 5,014 cubic yards of pit run gravel.

Road OI was extended for one tenth of a mile and surfaced with 252 cubic yards of pit run gravel.

One thousand, three hundred and thirty tons of cover stone were hauled from Lindberg's gravel pit on Road 480 to Birch in preparation for the sealing of the surface of Road 550 from Eagle's Nest north to half-way. Twenty-six thousand gallons of T-6 tar was ordered for this sealing operation.

On road 550-K, Federal Aid Secondary Project, 9.3 miles of bituminous surface was placed and extensions were added to existing culverts in the locations where the road was raised. In this work 52,000 gallons of T-3 tar, 29,000 gallons of T-6 tar, 1,740 tons of cover stone and 284 lineal feet of corrugated metal pipe culvert were used.

The annual inspection tour of the Buildings, Grounds and Insurance Committee of the Board of Supervisors was conducted. The Committee inspected the Court House, Morgan Heights, Ishpeming property of the Commission, County Citizen's Home and the Gwinn Garage of the Road Commission.

The monthly reports of Veteran's Referral Agency, County Treasurer, Dept. of Social Welfare were read and ordered filed.

The monthly report of the County Controller was read in part by Mr. Denny and ordered filed by the Chairman.

A resolution from the Presque Isle County Board of Supervisors urging opposition to the amendment to Act 117 of the P.A. of 1935 was read. This act created a county school district under the control of a County Board of Education. Supervisor Nicholas moved that the resolution be filed, inasmuch as the set up in the County of Marquette was functioning properly and also harmoniously with the Board of Supervisors.

✓ A resolution from the Huron County Board of Supervisors urging that County Parks be exempt, as are the State Parks, from the provisions of Sec. 12 of Act 143 of the P.A. of 1939, was read. The Chairman ordered the matter referred to the Legislative Study Committee.

✓ A resolution from the Iosco County Board of Supervisors urging the Legislature to enact legislation to place titles to undeveloped and unexplored mineral rights on the tax rolls of the various counties was read. This was likewise referred to the Legislative Committee for study by the Chairman.

Supervisor Dwyer moved that the Chairman appoint a committee to draft a resolution of appreciation for the work of Mr. Michaels, retiring member of the Social Welfare Commission. Supported by Supervisor Altobello and carried.

The Chairman appointed Supervisors Allen, Altobello and the Prosecuting Attorney to draft the resolution and gave them a five minute recess.

At this point Supervisor Dwyer addressed the Board and gave the following report.

Mr. Chairman:

At the last meeting of the Board of Supervisors, a motion was made and carried authorizing the expenditure of a flat rate of \$8,500.00 to the Sheriff's Department for the feeding of prisoners. There were two dissenting votes - one of which was mine. At that time, I made the remark that I thought the amount was too much. According to the Mining Journal, I was rebuked by the Chairman with the statement that I was evidently talking about something about which I knew nothing and that under the new set-up, the County would save money.

Later, after thinking the matter over, I still couldn't see where I was wrong, so I started to break down the figure of \$8,500.00 and with your permission, I will read the figures that I arrived at.

At a figure of \$8,500.00 a year for this purpose, simple arithmetic will show that it would cost the County (by the County, I mean the taxpayers), a monthly sum of \$708.33. Breaking this figure down further, it would mean that in case there were no prisoners, the County would be donating a sum of \$23.61 daily to the Sheriff's Department. If there was one prisoner, it would cost \$23.61 to feed him; 2 would cost \$11.82 each; 3 would cost \$7.87; 4 would cost \$5.90; 5 would cost \$4.72; 6 would cost \$3.93; 7 would cost \$3.37 plus a fraction; 8 would cost \$2.95; 9 would cost \$2.62 1/3; 10 would cost \$2.36; 11 would cost \$2.14 plus; and 12 would cost \$1.96 plus. All of these are per diem charges. I understand that the average number of prisoners varies from 4 to 7 which under the proposed set up would cost from \$5.90 to \$3.37. As the present rate is \$1.20, I do not see where there is any saving.

Now on the other hand, we have a number of children who are being care for by foster parents. These good people receive the sum of \$22.25 per month for the care of these children, who after all are likely to become good American Citizens. This means that these people receive the sum of Seventy-four cents per day. For this amount, they do their washing and provide them with all of the comforts that they themselves enjoy. In this connection, the ones that are in jail are not there for the purpose of sprouting their wings. Frankly, I cannot see the ratio of these figures.

As this \$8,500.00 is not effective until Jan. 1, 1952, I would like to have you gentlemen review these figures and if you have any comment, I would like to hear same. Also, for your information in this connection, the County Clerk in his report to the Auditing Committee just stated that the cost of boarding the jail prisoners for the previous month was \$523.00. I cannot see where the County is saving any money by spending \$708.33, whereas cost of same for the past month was \$523.00.

I am going to ask you gentlemen to check on these figures and if I am wrong, I will stand corrected--otherwise at the next meeting of the Board of Supervisors, I am going to ask the Board to rescind the motion and that the present per diem of \$1.20 for feeding the prisoners remain in effect.

E. M. Dwyer.

Supervisor Nicholas moved Supervisor Dwyer's report be made a part of the minutes of the meeting. Supported by Supervisor Hill and carried.

Supervisor Allen then read the following resolution and moved its adoption. Supported by Supervisor Altobello and carried.

Ishpeming, Michigan
January 17, 1952.

Honorable Chairman and members Marquette Co.
Board of Supervisors,
Marquette County, Michigan.

Gentlemen:

A joint meeting of the Highways and Bridges Committee with the County Road Commission was held at 9:30 A.M., Thursday, January 17, 1952 at the County Road Office, Ishpeming, Michigan.

The purpose of the meeting was the consideration of a petition of the Dead River Sports and Camping Association for a new county road connecting JI and JH crossing sections 12, T 48 N. R. 27 W and Sections 7, 8, 16 and 17, T 48 N. R. 26 W., Negaunee Township, a distance of approximately two and a half miles.

Chairman Stakel and Superintendent Shroeger described in detail the existing situation with regard to the locality, having traveled in car and on foot much of the proposed location and explained the present and future financial structure of the County Road funds. After considerable discussion and questions the committee voted unanimously against recommending the structure of the road, at the present time.

The explanation and discussion that influenced the committee to vote against the petition disclosed the following facts:

1. A preliminary survey and personal visitation by the Road Commission of the territory to be served indicated a probable construction cost of \$25,000 for an ordinary gravel road, over the cheapest route. An alignment nearer the Basin would involve additional grading as well as a \$15,000 bridge.

2. The owner of a one-half mile section to be crossed by proposed road, absolutely refuses to grant a right of way. Condemnation proceedings would be necessary. The owner of another quarter mile stretch will only grant a right of way in the North-South section, which direction takes the road away from the basin. While no estimate has been made of an alternate route to avoid these two properties, it is believed that it would involve a more expensive project or defeat its purpose by being too far from the basin.

3. Only 35 camps would be benefited, whereas there are 139 signatures on the petition.

4. The 1951 legislation regarding state highway funds has changed the amount of state funds allotted to the county for roads from what has formerly been received, as well as changing the purpose and as of the present date, it is not possible to determine accurately what will be received in 1952. Under any circumstances, it is exceedingly

there
improbable within the next few years, that will be sufficient funds available for the proposed roads, unless the money is diverted from that planned for more highly traveled roads.

5. Ishpeming and Negaunee Township boards have already determined where the 1952 road money is to be placed, so no help can be expected from that source.

Respectfully submitted,

Carl Brewer, Chairman
M. F. Ball
Matt Rautio
Axel Carlson

Supervisor Brewer gave some explanatory remarks regarding new legislation affecting state and county roads after the reading of the above report.

✓ The following report of the Conservation Committee was read. Supervisor Hill moved its adoption. Supported by Supervisor Corneliuson and carried.

Marquette, Michigan
February 14, 1952.

RESOLUTION

Whereas at the present time our Michigan Department of Conservation is one of the best in our Nationand

Whereas the possible placing of this department under a single Director appointed by the Governor would be a serious mistake. Perhaps subject to political pressure and subject to change at the whim of each succeeding Governor, and

Whereas our Governor is not a Conservation man and we have no assurance his successors will be, therefore we see no reason why he should not accept the recommendation of the "Little Hoover Commission" on this matter.

Therefore be it resolved that the Marquette County Board of Supervisors go on record as being unalterably opposed to political control of the State Conservation Department. Particularly being opposed to the recommendation of an Advisory Committee who were not properly represented and their recommendation by a minority vote. We believe the staggered seven man Conservation Commission serves our people and county best, that under the present system no one governor nor his successor could appoint a majority of the Commission and this Commission in its present form does reach unbiased quick results.

Be it further Resolved, that copies of this Resolution be sent to the following: Hugo Nelson, Chairman, Legislative Conservation Committee, Alvin Richards our local State Representative, State Senator Joseph P. Cloon and Governor G. Mennen Williams and the Upper Peninsula Sportsmens Association office, Negaunee, Michigan.

Respectfully Submitted

Your Committee recommends that general improvements be made in the parking area and trailer camping area at Perkins Park. The budget for 1953 provides for these improvements.

VanRiper Park, Champion Twp.

It is recommended that a new concession stand be built at the park. On inspection, the Committee determined that the existing concession stand was in a very unstable

structural condition and believes the only solution to this problem is the replacement of the existing concession stand. The budget for 1953 provides for this construction.

Gwinn County Park, Forsyth Twp.

It is recommended that a lighting system be provided at this park. It is estimated that this work can be done for approximately \$600.00. The Park Custodian pointed out that some construction should be planned to prevent the erosion of the West bank of the river in the swimming area.

In general, your Committee found the three parks to be in a clean and well maintained condition.

K. I. Sawyer Airport, Sands Twp.

The Committee inspected the K. I. Sawyer Airport and in particular the new lighting system at the airport. The Committee has no recommendations to offer for the airport.

Respectfully submitted,
County Parks and Airports Comm.

✓The following report of the Highways & Bridges Committee was read. Supervisor Brewer moved the report be adopted. Supported by Supervisor Hill and carried.

There was a joint meeting of the Marquette County Road Commission and the Highways and Bridges Committee held on September 8, 1952.

The following members of the Highways and Bridges Committee were present:

Messrs. Brewer, Beaudry, Ollila, Wiseman, Carlson, Ball, Rautio, Sandstrom, and Pleary.

Messrs. Stakel, Archibald and Shroeger of the Road Commission were also present. Mr. Reynolds was absent. Mr. Frank Denny, County Controller, also accompanied the party.

The morning was spent inspecting the new construction on Road 557 in the Southern part of Forsyth Township where realignment and bridge construction was well under way. The gravel pit and surface graveling operations on road 426 in Wells Township was also inspected. The next stop was at the L. S. & I. railroad crossing at road 480 just east of the City of Negaunee, where Mr. Schroeger explained the two types of black top that had been put on road 480 this season. An inspection of black top operations in progress had been planned but owing to the good weather the work had been completed earlier than expected so there was no opportunity to see this work being done. Lunch was served at the Mather Inn at which Mr. Corneliuson, Chairman of the Board of Supervisors was present.

After lunch, Mr. Schroeger, County Road Superintendent discussed the problems of the Road Commission. The general discussion that followed brought out the following needs, which tend to handicap the operation of the Road Commission:

1. Salaries and wages should be raised.
2. The necessity of the replacement of the old equipment, most of which is over ten years old. Attention was called to the fact that in 1951, \$71,000 was spent in repairing equipment alone, 38,000 being machinery parts and the balance, \$33,000, in labor and that this amount would probably be exceeded in 1952.
3. The need of a portable hot mix bituminous plant owned and operated by the Commission. The cost of such a plant would be approximately \$110,000, which probably could be purchased on the installment plan. Such a plant would produce more than thirty miles of black top on County Roads besides that which may be required by the three municipalities. It was estimated that this asphalt surface could be laid at a better than 50 per cent saving under contract price.

The Highways and Bridges Committee wishes to commend in the highest terms the splendid work that the Road Commission, the Superintendent and all the employees are doing on the county roads.

The Highways and Bridges committee recommends that wholehearted support be given to any plan for the purchase of highway equipment, wage increases or a hot mix bituminous plant that may be proposed by the Commission.

There being no further business to discuss, the meeting was adjourned at 2:45 P.M.

Ishpeming, Michigan
September 17, 1952.

Honorable Chairman and Members of
Marquette County Board of Supervisors.

Gentlemen:

Your Legislative Committee has had under consideration the resolution from Ogemaw County in regard to the reservation of minerals by the State of Michigan upon the sale of land received for non-payment of taxes, and wish to report that your Committee found considerable merit in the resolution. The law providing for such reservation of mineral rights was adopted in 1909 and it has been learned that the State received since 1927 income from leases in an amount exceeding \$14,000,000.00 and that for the last five years, the annual income has been around \$1,000,000.00. The Supreme Court of the State of Michigan has held that the law is constitutional, but there is considerable difference of opinion as to the policy whereby the State reserves these mineral rights.

It does not appear to this Committee that the solution of the problem and that the recommendation contained in the Ogemaw resolution is necessarily the correct one.

Your Committee therefor, recommends that this Board take action in favor of a study of the problem by the Michigan State Association of Supervisors, with the thought in mind that this Association might be able to make some satisfactory recommendation to the Legislature covering the subject matter.

Your Committee further recommends that a copy of this report be sent to the Michigan Association of Supervisors and also copies mailed to the Representative and Senator from this district.

Respectfully submitted,

In the case of an emergency or in case a Department requires additional funds or needs some special equipment, which could not be foreseen at the time of the annual meeting, we recommend that the head of that Department present this matter to the Board of Supervisors for their consideration, and that they grant, where deemed necessary, authority to exceed the figures established in the annual budget.

✓ The following report of the Building, Grounds and Insurance Committee was read. Supervisor Dwyer moved its adoption. Supported by Supervisor Dompierre and carried.

Honorable Chairman and members
of Marquette Co. Board of Supervisors,
Marquette County, Michigan.

Gentlemen:

Your Committee on Buildings, Grounds and Insurance met on Tuesday, October 21, 1952, for the annual inspection of the buildings of the several County Departments.

An inspection of Morgan Heights Sanatorium was made and the buildings and grounds of that institution were found to be in very good condition. The site of the proposed addition to the Sanatorium was pointed out by Dr. Acocks, who informed us that some preliminary survey work has already been done. We wish to compliment Dr. Acocks on his efficient use of available space while awaiting construction of the new building. Attention was called to the fact that the sanatorium is in need of a truck for snow removal, to facilitate parking during the winter and for other uses in connection with the grounds.

A thorough inspection of the Road Commission buildings at Ishpeming was made. Marked improvement was noted in the general condition of the buildings since our last inspection. The office building, which includes the offices of Social Welfare Dept. was found in its usual clean well kept condition. The interior has been repainted and the cleanliness of the building is remarkable.

The County Citizens Home was found in its usual clean, well kept condition. A used freezer acquired at very little expense to the County has been installed in the kitchen and should prove an asset to the home. However, the kitchen sink is worn and outmoded, and your Committee recommends that a new sink be installed.

The County Jail was inspected and found in excellent condition.

WHEREAS, the present type of bituminous road surface construction within the Marquette County certified road system has proven to be unstable and will not adequately withstand the present traffic loads and spring break-up conditions, and

WHEREAS, the cost and labor and equipment time consumed in patching and repairing the existing bituminous road surfaces have definitely limited the amount of improvements that have been made in the Marquette County Road system, and

WHEREAS, the continuance of the existing type of bituminous construction will result in the spending of increasing amounts of labor time, equipment time, and dollars each year in the patching of road surfaces only and will definitely decrease the number of miles of new bituminous construction each year, and

WHEREAS, the Road Commission believes that the solution to these problems is the purchase of a modern, portable hot mix bituminous plant with necessary accessories and haul trucks, which will produce a better and more durable bituminous road surface that will not only greatly reduce future patching and general maintenance costs but will have a smoother riding qualities, and

WHEREAS, THE revenues of the Road Commission will not permit the purchase of the above mentioned equipment, and,

Whereas the purchase of the above necessary described equipment will amount to approximately \$150,000.00, payment for which may be made in five equal annual payments, and

WHEREAS, the Road Commission will pay any interest that may arise out of a time purchase plan as described above,

THEREFORE, BE IT RESOLVED that for proper and progressive road construction and maintenance in Marquette County and to more adequately serve the people of Marquette County with better roads, the Board of Supervisors for Marquette County hereby provides the Marquette County Road Commission with an additional \$150,000.00 in five annual payments of \$30,000.00 each, the first of which shall be turned over to the Marquette County Road Commission on purchase of the equipment in 1953 and the succeeding payments each year thereafter for four years.
