CLEVELAND - CLIFFS IRON CO.
MINING DEPARTMENT

AGENT’S ANNUAL REPORT
FOR
YEAR ENDING
DECEMBER 31ST, 1914
THE CLEVELAND-CLIFFS IRON COMPANY

MINING DEPARTMENT

AGENT'S ANNUAL REPORT.

FOR

YEAR ENDING DECEMBER 31, 1914.
INDEX

MORO MINE:
Production and Shipment .................... 2
Surface .................................. 2
New Construction ......................... 2-3
Shipments for 1914 ......................... 4

LAKE MINE:
Production .................................. 5-6
Delays ..................................... 6
Rock Drifting ............................... 7
Estimate of Ore Reserves ................. 7
General ................................... 8
Surface .................................... 8-9
Underground ................................. 9-28
Statement of Comparative Mining Cost ... 29
Comparison of Cost Sheets ............... 30-35
Average Mine Analysis of Output .... 36
Average Analysis on Straight Cargoes ... 36
Ore Statement for 1914 .................. 36
Shipments for 1914 ....................... 36
Statement of Comparative Wages ...... 37
Statement of Avg. Wages and Product ... 37
Timber Statement for 1914 ............... 38
Statement of Explosives Used .......... 39

CLIFFS SHAFT MINE:
Production ................................. 40-42
Delays .................................... 42-44
Estimate of Ore Reserves ............... 44
Surface .................................. 45-46
Underground ............................... 46-63
Statement of Comparative Mining Cost ... 64
Analysis of Cost Sheets ................. 65-70
Average Mine Analysis of Output ..... 71
Average Analysis on Straight Cargoes ... 71
Ore Statement for 1914 .................. 71
Shipments for 1914 ....................... 71
Statement of Avg. Wages and Product ... 72
Statement of Comparative Wages ...... 72
Statement of Explosives Used .......... 73
SALISBURY MINE:

Production ........................................... 74-76
Delays ................................................. 76
Estimate of Ore Reserves ............................ 76
Fatal Accident ........................................ 77
Surface ................................................. 78
Underground ........................................... 79-88
Statement of Comparative Mining Cost ............ 89
Analysis of Cost Sheets .............................. 90-94
Average Mine Analysis of Output .................. 95
Average Analysis on Straight Cargoes ............ 95
Ore Statement for 1914 ............................. 95
Shipments for 1914 .................................. 96
Comparative Avg. Wages & Product ............... 97
Statement of Comparative Wages .................. 97
Timber Statement for 1914 ......................... 98
Statement of Explosives Used ...................... 99

NEGAUNEE MINE:

Mine Fire .............................................. 100-103
Fatal Accidents ....................................... 103
Crushing .............................................. 103-105
Carbide Lamps ....................................... 105
Cooling Tower ....................................... 105
Bulkhead Between Haas and Negaunee ............. 105
Bailers ............................................... 105
Surface Improvement ................................ 105-106
Single Shift ......................................... 106
Fencing Caved Areas ................................ 106
Landers' Shanty ..................................... 106-107
Safety Appliances ................................... 107
Shaft House ......................................... 107
Cages ............................................... 107-108
Stocking Trestle ................................... 108-109
Pump House and Sump ............................... 109-111
Reduction of Wages ................................ 111
Compressor ......................................... 111
Electric Current Delays ............................. 111-112
Estimate of Probable Ore .......................... 112-113
Analysis of Cost Sheets ............................ 113-123
Underground ........................................ 123-128
Rock Drifting ....................................... 128
Statement of Comparative Mining Cost ........... 129
Average Mine Analysis of Output ................ 130
Average Analysis on Straight Cargoes ........... 130
Ore Statement ....................................... 130
Shipments ......................................... 130
Statement of Comparative Wages .................. 131
Statement of Comparative Avg. Wage & Prod. ... 132
Timber Statement ................................... 133
Statement of Explosives Used ...................... 134
### MAAS MINE:

| Stockpiles                      | 135 |
| Rock Trestle                   | 132-136 |
| Coal Dock                      | 136 |
| Compressor                     | 136 |
| Surface Improvement            | 136-137 |
| Casing Shaft                   | 137 |
| Freezing of Shaft              | 137-138 |
| Carbide Lamps                  | 138 |
| Crushing                       | 138-139 |
| Flow of Sand                   | 139-140 |
| Damage to Steel Sets           | 140 |
| Bailing                        | 141 |
| Main Water Line                | 141 |
| American Mining Co             | 141-142 |
| Closing Mine                   | 142-144 |
| Sump and Pump House            | 144-145 |
| Winze to 4th Level             | 145-147 |
| Fatal Accidents                | 147-148 |
| Wages                          | 148 |
| Production                     | 149 |
| Estimate of Probable Ore       | 150 |
| Underground                    | 150-155 |
| Conclusion                     | 155 |
| Rock Drifting                  | 155 |
| Statement of Comparative Mining Cost | 156 |
| Analysis of Cost Sheets        | 157-165 |
| Average Mine Analysis of Output| 166 |
| Average Analysis on Straight Cargoes | 166 |
| Ore Statement                  | 166 |
| Shipments                      | 166 |
| Statement Comparative Avg. Wages & Prod | 167 |
| Statement of Comparative Wages | 167 |
| Timber Statement               | 168 |
| Statement of Explosives Used   | 169 |

### ATHENS MINE:

| New Construction               | 170-171 |
| Equipment for Concrete         | 172-172 |
| Gravel Pit                     | 173-173 |
| Cage                           | 173-175 |
| Rock Dump                      | 175 |
| Sinking in Rock                | 175-176 |
| Water                          | 176 |
| Blasting                       | 176-178 |
| Captains                       | 178 |
| Fatal Accident                 | 178-179 |
| Wages                          | 179 |
| Progress                       | 179-180 |
| Construction Cost Statement    | 180-181 |
| Conclusion                     | 181-182 |
SOUTH JACKSON AND CRUSHER:
Crusher ........................................ 183
South Jackson Mine .......................... 183-184
Average Mine Analysis of Output ........ 185
Average Analysis on Straight Cargoes ... 185
Ore Statement and Shipments ............. 185
Statement of Comparative Mining Cost ... 186
Statement Comparative Avg. Wages & Product 187
Statement of Comparative Wages .......... 187

NORTH JACKSON MINE: ......................... 188

LUCY MINE ........................................ 189

MORRIS-LLOYD MINE:
Production and Shipments .................. 190-192
Estimate of Ore in Sight .................... 193-195

MORRIS MINE:
General .......................................... 195-196
Underground .................................... 196-199
Excelsior Iron Co. ........................... 199-201
Chase Lease ................................... 201-203
Excelsior Iron Co. Land ..................... 203-211
Pumping Expense ............................. 211-213
Underground Drilling ....................... 213-214

LLOYD MINE:
General .......................................... 214
Underground .................................... 215-219
Southwest Shrinkage Stopes ............... 219-221
Sinking Lloyd Shaft ......................... 221-231
Sinking Section 6 ............................. 231
Fatal Accident ................................ 232
Accidents to Equipment ..................... 232-234
Surface ......................................... 235-237
Safety .......................................... 237
Water Supply .................................. 237
Location ........................................ 238
General Welfare ............................... 238

(MORRIS):
Comparative Mining Cost Statement ....... 239
Analysis of Cost Sheets .................... 240-249
Average Mine Analysis of Output ......... 250
Average Analysis on Straight Cargoes ... 250
Average Analysis on Mixed Cargoes ...... 250
Ore Statement .................................. 250
Shipments ...................................... 251

(LLOYD):
Average Mine Analysis of Output ........ 252
Average Analysis on Straight Cargoes .... 252
Ore Statement .................................. 252
Shipments ...................................... 253
MORRIS-LLOYD MINE (CONT'D):

Consolidated Ore Statement 254
Consolidated Statement of Shipments 254
Statement Comparative Wages & Product 255
Statement of Comparative Wages 255
Timber Statement 256
Statement of Explosives 257

CHASE MINE:

Production 258
Shipments 258
Ore Estimate 258-260
Underground 260-261
Main Shrinkage Stops 261-263
Southwest Shrinkage Stops 263-265
Small West Shrinkage Stop 265-266
Small Southwest Stop 266-267
Small East Shrinkage Stop 267-268
Underground continued 268-274
Underground Drilling 274-275
Accidents to Equipment 275

CONCLUSION ............................... 637
THE CLEVELAND-CLIFFS IRON COMPANY.

Tahquamenon, Michigan.

January 1, 1915.

Mr. Wm. G. Mather, Pres.,

Cleveland, Ohio.

Dear Sir:-

I beg to submit the following report of the operations and present conditions of the mines of this Company. The inventories, maps, and statements relating to this report go forward to you under separate cover.

The tinted portions of the maps show the extensions for the year, and the location of each contract is indicated by the corresponding number.

The reports on the different mines of the Company were made by the superintendents in charge, and the reports of the Mechanical, Engineering, Geological, Pension, Educational, and Safety Departments by the heads of these departments.
