Moved by Commissioner Anderson, supported by Commissioner Tierney, and adopted, that the mayor and city clerk be and they are hereby authorized to sign the supplemental agreement presented by the state highway department covering the maintenance of state trunkline highways until July 1, 1941.

Yea—Mayor Bieger, Commissioners Anderson, McGinley, Patrick and Tierney.

Moved by Commissioner McGinley, supported by Commissioner Patrick, that the city commission hereby proposes that the Marquette city charter be amended, to provide for a civil service system for city employees, by including in Chapter 10 thereof the following:

**Civil Service**

Sec. 7. The city commission shall provide by ordinance for a system of civil service for all city employees except as hereinafter qualified or exempted.

Sec. 8. The civil service ordinance shall provide for a civil service board to administer the program, and shall delegate to such board appropriate power required for the effective administration of the civil service system. The board shall consist of three electors of the city, two of whom shall be appointed by the city commission and one of whom shall be selected by majority vote of city employees not exempted under Section 13, Chapter 10. The terms of the office of the first two board members appointed by the commission shall be one and three years respectively. The term of office of the first board member selected by city employees shall be two years. Upon expiration of the respective terms of office of the first three board members, their successors shall be appointed or elected for terms of three years each.

Sec. 9. The civil service ordinance shall provide that members of the civil service board shall serve without compensation and shall not hold any other public office nor serve on any political committee nor take active part in the management or conduct of any political campaign. The city commission may remove any member of the board upon stating in writing the reasons for removal and allowing him an opportunity to be heard in his own defense. Any vacancy shall be filled by the city commission for the unexpired term.

Sec. 10. The civil service ordinance shall provide that the civil service board shall formulate rules and regulations covering the selection and promotion of city employees, it being required that, so far as is possible and consistent with public welfare, all appointments and promotions in any and all departments of the city shall be made from employees of such departments, in the order of their seniority, who can qualify under the civil service system for such appointments or promotion. Where competitive tests are used and eligible lists created, appointments shall be made from the three candidates standing highest on such lists. Such rules and regulations shall forbid appointment on any other grounds than those of fitness for the positions to be filled, and shall prevent favoring or discriminating against any applicant or employee because of his color, religious or industrial opinions or affiliations.

Sec. 11. The civil service ordinance shall provide that all persons holding positions in city employment, except those exempted under Section 13, Chapter 10, who shall have served in such positions of employment for a period of at least six months last past continuously, are declared eligible for permanent appointment under civil service to the respective positions of employment which they shall then hold, without examination or other act on their part, and not on probation, and that every such person is thereby automatically inducted permanently into civil service into such employment which such person then holds as completely and effectually to all intents and purposes as if
Official Proceedings of the City Commission

such person had been permanently appointed thereto under civil service after examination and investigation.

Sec. 12. The civil service ordinance shall provide that no employe within the civil service shall be demoted or discharged except for cause, and shall provide a means whereby such employe shall be entitled to a hearing and have the right to appeal to the civil service board. Said board shall have the power to subpoena witnesses for any such hearing and to provide for the punishment of any person who having been personally served with a subpoena refuses or neglects to comply with the same. Nothing herein shall prevent the discharge of any employe when the position he holds has been abolished, or when a reduction of personnel is made necessary for reasons of economy, but in all cases except abolition of position the principles of seniority shall govern both as to discharge and reinstatement.

Sec. 13. The civil service ordinance shall be specifically exempt from the jurisdiction of the civil service board the appointment, discharge, transfer or promotion of the following described officers and employes:

(a) Officials elected at large by the qualified electors of the city under the provisions of Section 1, Chapter 3 of the city charter;

(c) Department heads appointed by city commissioners and confirmed by the city commission under the provisions of Section 8, Chapter 9 of the city charter; and,

Sec. 14. The civil service ordinance shall provide that city clerk shall, ex officio, be clerk of the civil service board, without extra compensation.

The city commission shall provide suitable accommodations and necessary clerical and stenographic service for carrying out the work of the board, and shall authorize purchase of the necessary stationery and other supplies for the official use of the board.

Sec. 15. It is the intent of the provisions of Sections 7 to 14, inclusive, Chapter 10, to establish a merit system program as an integral part of the administrative service, to the end that the handling of the personnel activities will be done in a manner equitable to the employees, satisfying for the administrative officials, and, by increased efficiency and improved administration, economical to the citizens.
