EVERETT H. KENT,
City Clerk
OFFICIAL PROCEEDINGS OF THE CITY COMMISSION

Friday, June 2, 1967

A Special Meeting of the Marquette City Commission was duly called and held Friday, June 2, 1967 at 7:00 o’clock, P.M.

Present: Mayor Moore, Commissioners Brumm, Price, Rydholm, St. Cyr, Home Owners Steering Committee.

Absent: None.

Mayor Moore stated that the purpose of this meeting was twofold as follows:
1. To discuss and determine the Commission’s position on the numerous problems facing the home owners in the Doxiadas Expansion Area. Discussion to be between the Steering Committee of Home Owners in the Doxiadas expansion area.

2. To have Mr. Howell explain to the Commission the status and background of the land acquisition for Senior Citizens Housing.

Mayor Moore informed those present that considerable work has been done on the problems confronting the Committee in the Northern Michigan University Expansion.

Mayor Moore called on Mr. B. J. Myler, President of the Union National Bank and Mr. Ellwood Mattson, Vice President of the First National Bank to inform those present of work that has been done by the Marquette Development Corporation. Mr. Myler then addressed the meeting explaining this non-profit Organization’s functions and what is hoped will be accomplished in order to resolve some of the problems in this expansion endeavor. Mr. Myler presented a detailed plan to develop a subdivision to be made available to the dispossessed property owners. Mr. Mattson addressed the meeting and gave figures of the overall cost of the development of a subdivision as outlined by Mr. Myler.

He also informed all those present that if they feel this project has merit, to communicate such feelings to the Banks interested in this subdivision development. Mr. Mattson stated that both banks have no personal interest in the financing arrangement with what was trying to be done in this development. The area in consideration is bounded on the South by Wright Street, on the West by Wilkinson Avenue, and on the East by Presque Isle Avenue.

Mr. Edward Malmgren, Chairman of the Home Owners Steering Committee addressed the Commission explaining the purpose of the Committee’s request for this special meeting and read a letter as follows:

Honorable Mayor and City Commission:

As of this date the Home Owners Steering Committee feels there has been no improvement in communications with Northern Michigan University. In fact the situation seems to have worsened as pressures have mounted and conflicts of interest are in evidence.

This Committee believes that the time has come for the Commission to unite and pursue a legal course of action in dealing with NMU’s expansion into residential areas. This we have reason to believe would end the present policies that have created confusion and lack of communication.

We also feel that any further delay in meeting this challenge by any city official would be to divest himself of a public trust thus weakening the whole local government structure for eventual outside control. We feel strongly that there is a definite legal responsibility by the city to all citizens of Marquette as well as those in the expansion area.
Official Proceedings of the City Commission

Land acquisitions of such proportions should not be permitted without legal action being taken by the home owners and the city to protect all public and private properties to the extent desired.

We are not much concerned at this time with the proposed projects of land development since the question of need for eastward expansion has not been settled.

The City Commission by a majority vote at this meeting could obtain the services of a qualified attorney and change this undignified situation into an exercise of rights and due process of law. This in itself would establish a precedent to be followed in similar situations in the future. The practice of paid professional consultants has been a common practice in all areas of community endeavor.

In closing it could be said, the University has its President, a board of control and its campus and that we have our Mayor, a commission and our city. This committee feels we should keep it that way for all practical purposes enjoying equal rights and privileges through good communications.

Sincerely,
Edward Malmgren
Home Owners
Steering Committee

Mr. Don Becker of the Committee informed those present that he had read the Doxiadas recommendation, and nowhere in it could he find a statement that the Northern Michigan University expansion program must go any definite direction. Mayor Moore pointed out that the direction of expansion was determined by the Board of Control of NMU.

City Attorney Robert B. Bordeaux was asked his opinion regarding the matter of the City engaging legal counsel.

Following considerable discussion it was moved by Commissioner Brumm, supported by Commissioner St. Cyr that the City Manager and City Attorney be instructed to investigate all legal possibilities to help the people involved in this expansion program and to report their findings at the next Regular Commission meeting.

On motion of Commissioner Brumm, supported by Commissioner St. Cyr that the City Commission make an effort to effect a meeting with the Northern Michigan University Board of Control even if drastic measures such as a letter to the Governor asking him to direct the Board of Control to meet with the City Commission.

It was then moved by Commissioner St. Cyr, supported by Commissioner Brumm that the Commission go on record as standing behind these people in the expansion area and that as much help as possible be given in this matter.

Mr. Edward Bernard of the Home Owners Committee noted at least 350 homes were affected and that some 1,000 persons would be disrupted through the expansion as it is now proposed. Mrs. Bernard also asked the naming of a Committee to cooperate on the problem. The Mayor and City Commission unanimously agreed that the Governing Body of the City, and the City Manager would work with the Home Owners Steering Committee.

Mayor Moore then thanked all citizens present for attending this meeting. He then declared a recess.
Following the recess the Commission reconvened to discuss the matter of the status and background of the land acquisition for the Senior Citizens Housing Program. Mayor Moore then called on Mr. George Howell to explain what has been done regarding the property to be included in the project for Senior Citizens Housing.

Mr. Howell informed the Commission of the status of the land acquisition.

Mayor Moore traced the history of the land transactions involved in the old Froebel School site to and including the present owner.

Various Commissioners expressed their opinion regarding the proposed housing construction by the present owner.

The Mayor and City Commission unanimously agreed that Mr. Howell give the City Commission frequent reports on all activities of the Housing Commission including minutes of each meeting.

There being no other business before the Commission at this time, meeting adjourned.
