Chairperson Corkin opened the meeting for public comment. Robert Beams, Richmond Township Resident, expressed his dissatisfaction with the reply from Civil Counsel, David Payant, in regards to his complaint alleging violations by Richmond Township Officials of their neglect of duty by not enforcing the Township Zoning Ordinance. Mr. Beams does not expect any further action from the County Board, but wanted to express his opinion. There being no further public comment, Chairperson Corkin closed this portion of the meeting.

It was moved by Comm. Seppanen, seconded by Comm. Angeli, and unanimously carried that the agenda be approved with the following Late Addition; 11a) become a discussion of Payment in Lieu of Taxes by the Federal Government.

Privileged Comment

8a) & 8b) Dr. Ron Davis, Chief Medical Executive of the Michigan Department of Public Health, cannot be present until approximately 8:00 p.m. and so the County Board will proceed with the agenda.

Privileged Comment Cont’d.

8c) Jennifer Bennon, Court Administrator/Magistrate, was present to comment and answer questions regarding the 96th District Court 1991 Annual Report. Ms. Bennon highlighted the report by explaining that the figures demonstrate a 35% increase in judgement collections over 1990, which also increased the general fund revenues by over 34%. The District Court has enacted Caseflow Management Procedures which have been shown effective in eliminating court document congestion and also meeting the required length of time from arraignment to trial, which has been reduced from 6 months to approximately 60 days. District Court has demonstrated it has a capable hardworking and dedicated staff that has pulled together as a team to maintain operations, and solve problems, thereby resulting in increased revenues and more efficient operations and services.

District Court Judge, James Collins, was also present and pointed out the important bottom line from the last page of the report which shows that since 1987 case filings have increased from 15,477 to 16,277 or 10%; however, because of emphasis on enforcing orders and collecting unpaid judgments due to the court, revenues have more than doubled or increased by 110%. General fund revenues have increased by 130%, while operation costs have increased by only 47%. In 1987 court expenditures cost the general fund $184,626.00, but in 1991 revenues over expenditures put $75,206.00 in the County general fund. Judge Collins also thanked the County Board for their support in District Court operations.

Chairperson Corkin on behalf of the County Board commended District Court for an excellent job.

Action Items Cont'd.

10a) The County Board considered a recommendation from the Community Mental Health Liaison Committee which consists of representatives of the Alger County Board, Marquette County Board, Alger-Marquette Community Mental Health Board, and Marquette County staff. The meeting was held on Friday, February 14, 1992, to discuss the various options for financing new construction for the AMCMH capital projects program. The consensus of the Liaison Committee and the AMCMH Board was to recommend that the County Board pledge their full faith and credit behind the issuance of bonds in the amounts of approximately $1.5 million dollars, and that the first priority for financing the sale of bonds should be through a negotiated sale with local banks (all local banks should be contacted through a bid process), and if that first priority is not feasible the County should then consider limited general obligation bonds in the like amount.
Alger-Marquette Community Mental Health Board Chairperson, Rudolph Kemppainen, was present and pointed out that CMH must have a contingency plan in place when the Newberry Hospital closes. It will then be the responsibility of local Community Mental Health agencies to provide services for clients who would have no means to care or protect themselves.

Dr. William Birch, CEO, Alger-Marquette Community Mental Health, further added that as a result of the Community Mental Health capital project expanded programs and construction, 50 to 60 new employees will be needed in the Marquette County area. Dr. Birch is pleased with the recommendation that came out of the Liaison Committee.

It was moved by Comm. Seppanen, seconded by Comm. Angeli, and unanimously carried that the County Board concur and approve the Liaison Committee recommendation and pledge their full faith and credit for the sale of bonds with first priority being a local bank, and if this is not feasible then the County should issue limited general obligation bonds.

10c) The County Board considered a Committee of the Whole recommendation to approve Phase II of the re-carpeting projects, the low bidder being Sherwin Williams in the amount of $14,976.49 for the Courthouse Annex Project, and $5,337.93 for the Jail Administration Project. Comm. Seppanen did not see the need for re-carpeting Room 41 at this time. The tile in Room 41 is in excellent condition, and by not carpeting Room 41 the County could save approximately $500.00.

It was moved by Comm. Seppanen, seconded by Comm. Angeli, and unanimously carried to accept the re-carpeting bids with Sherwin Williams being the low bidder without Room 41 being re-carpeted, which is part of alternate II. George Wright, Facilities Manager, will have to renegotiate alternate II with Sherwin Williams.

Late Additions

11a) Comm. Angeli requested that Commissioners consider and support a resolution which provides for a payment in lieu of taxes for those lands owned by the federal government in the Upper Peninsula in the amount of $2.50 per acre. Chairperson Corkin requested that Comm. Angeli investigate the matter further and with the help of staff draft a resolution to be considered at a future Committee meeting.

Chairperson Corkin opened the meeting for public comment. Lynn Emerick, Director, Commission on Aging, was present and explained that the Marquette City Treasurer will also waive penalties for late payment of property taxes by eligible persons. This affects 24 people in the City of Marquette, the total taxes involved $24,000.00, and at a 1% fee amounts to a mere $246.00. The City Treasurer informed Lynn Emerick that the fees being waived were only 1% and not the 6% that County Treasurer Sodergren was speaking of.

Dennis Aloia, County Administrator, had further information from the County Treasurer that indicates that Marquette County must pledge its full faith and credit to repay any tax delinquent notes, this includes any administration fees, late penalties, and interests, which amounts to about 6% at the County level.

Chairperson Corkin appreciated the Commission on Aging efforts in this matter, and requested a future update from Lynn Emerick. There being no further public comment, Chairperson Corkin closed this portion of the meeting.

Commissioner Comments and Announcements

Chairperson Corkin announced that Comm. Arsenault, while in Lansing at the MAC Conference, had an opportunity to meet with State Senator Koivisto regarding the shortage of nursing home beds in Marquette County. Senator Koivisto was impressed with Marquette County's efforts and will introduce legislation in the near future to support the availability of more discretionary nursing home beds.
7:30 p.m. Chairperson Corkin declared a recess until Dr. Ron Davis of the Michigan Department of Public Health arrives to make his presentation.

RECESS

7:50 p.m. The County Board came back in session.

Dr. Randall M. Johnson, Director, Marquette County Health Department, introduced Dr. Ron Davis, Chief Medical Executive, Michigan Department of Public Health, regarding the proposed State Tobacco Tax legislation.

Dr. Davis distributed the following information to Commissioners:

- House Bill #5467 and House Bill #5466; the "AHTTC" Ad Hoc Tobacco Tax Coalition to Attack Michigan's Health Problems; and a Community Health Investment Initiative Summary. Dr. Davis reviewed the "AHTTC" page by page which points out that Michigan's overall chronic disease death rate is the worst in the United States. One of the major causes of this death rate is smoking and the use of tobacco. The tax proposal will provide a net increase of $228 million dollars which would be used to fund a number of health services and education projects throughout the State of Michigan.

- Dr. Davis said the directors of the four Human Services Departments in Michigan support the initiative and requested County Board support.

Commissioners asked how much of this funding will come back to the local communities. Dr. Davis admitted that the Michigan Department of Health has not met its 50/50 Headlee obligations; however, they are trying to turn it around. Since 1978 the Health Department has backslid from a 24% funding of local health departments to only 14%; however, they need new sources of revenues to change this, and this tobacco tax initiative could provide that revenue. A survey conducted by Public Sector Consultants showed that 70% of the general public supported a 20 cent per pack tax hike, and 60% would support a 50 cent per pack tax. Dr. Davis is looking for resolutions, phone calls, letters of support, whatever the County Board could provide.

Chairperson Corkin, on behalf of the County Board, thanked Dr. Davis for his presentation and indicated that the County Board will consider the tobacco tax legislation at a future Committee meeting.

Chairperson Corkin opened the meeting for public comment, none was forthcoming.

There being no further business the meeting was adjourned.

Respectfully submitted,
