Marquette, Michigan

Dear Dr. Harden:

On behalf of the Lake Superior Chapter of The American Association of University Professors I wish to thank you for sharing your viewpoints with us on Monday evening. I believe that this sort of communication is vital to the academic climate on our campus.

I would venture to say that on the whole reaction by the membership to your comments was quite favorable. The chapter seemed especially gratified by your method of handling the delicate issue of community response to the controversial play, "Revival."

Sincerely,

Wm. L. Robinson
