A petition on the war in Viet-Nam, the wording and content of a letter to newly appointed President Jamrich, and the initial reading of the proposed Student Bill of Rights occupied center stage at Tuesday night's meeting of the Student Government Association.

The first major issue of the evening arose over the content and wording of the Senate's letter of congratulation to Dr. John Jamrich upon his appointment to the post of President of the University.

Senator Jim Winters moved that the Senate's letter should include a statement expressing the Senate's "warmest congratulations" along with a question inquiring as to Jamrich's position on the McClellan issue.

Don Keskey, SGA President, stated in reply that he did not think the Senate should apply any great amount of pressure on President Jamrich at this point. Keskey said that the President should be given a chance to meet with the Senate first and that questions of this nature might convey an air of hostility and might also be premature as the new President should be given time to study the issue thoroughly.

Some question arose from the floor as to whether Jamrich had not already had ample time to study the issue as he had been under consideration for the post for some time.

It was decided to follow Keskey's suggestion that the Executive Board of the Senate compose the letter to President Jamrich. Keskey said that an invitation to a Senate meeting in the near future and a statement expressing the Senate's "strong continuing concern over the McClellan case" to be more fit for inclusion in the letter than a question asking for Jamrich's position.

Anthony Nye Haynes appeared before the Senate as the representative of the Concerned Citizens of Marquette County and inquired whether the Senate might be willing to sign and/or make a contribution to an ad which will appear shortly in the Mining Journal expressing disapproval of the Vietnam War.

Keskey stated that he felt the Senate should take part in the ad as it would have an educative function in making Marquette County Citizens think about the War.

After an extended discussion it was decided by a 13 to 4 vote that the Senate would make a \$50 contribution to help defray the cost of the ad. It was further decided that the Senate would help in setting up and manning a table in the University Center where students who wished to take part in the ad might make contributions and/or sign the petition.

"Any amount of undue pressure on President Jamrich concerning the McClellan issue may create an air of hostility"

The Senate then moved on to a consideration of the initial draft of the proposed Student Bill of Rights prepared by Senator Jeff Ross's Student Rights Committee.
