

MEMORANDUM

FROM

OFFICE OF THE PRESIDENT

December 18, 1969

To: Members of the Student-Faculty Judiciary Committee

From: John X. Jamrich

Your prompt submission of the decision you reached last evening in the appeal case of Mr. Griffis is very much appreciated. You should be commended for the extraordinary effort you put forth to carry out the assignment you undertook early in the evening.

As I consider the circumstances which existed during the course of your deliberations, and in particular the fact that there may have been evident pressures due to the lateness of the hour as the night wore on, I am requesting that your committee reconsider, at the earliest possible date, its decision and inform me whether you feel that the decision needs further reconsideration due to conditions of time pressure, or whether it should stand.

Thank you.
