Details of the incident (date, time, and place; any and all facts pertaining to the case; statements of witnesses; etc.)

On Friday December 5th, 1969 3:30 A.M. Resident Asst Tom Hallquist entered my room, ~~it~~ stated that he had received a phone call from a person unknown, saying that Charles Griffis had a girl in his room. Tom had a friend with him, whom I asked not to accompany us to Charles room. At approximately 3:35 I knocked on the Griffis's door and Charles answered it immediately. I apologized for disturbing him at that hour and told him of the phone call that Tom had received. I asked him if I could come in, he said yes but that Tom could not. I entered his room and in looking around his room I saw a young lady standing in his closet, the closet door was open. I asked him to step out of his room, which he did. Tom asked him if there was a girl in his room and he denied it. We talked for a few minutes more and then with Charles the three of us entered his room. Turning on the over head light Tom and I ~~with~~ looked in the room and after Tom moved the bed, we saw a young lady on the floor next to the heater. For the second time I asked Charles to step out of the room so we could talk about it, which we did. In the room directly across from his we confronted Charles again about having a girl in his room and at this time he admitted that there was. After several minutes of conversation, I stepped out of the room and was in the process of going to my room to get some cigarettes, when I heard a loud noise from down the hall. I turned around and asked Tom what had happened, he stated that the girl had run down the stairway and had gotten away.
