4 Molotov Cocktails Tossed Into Kaye Hall; Little Damage

Blackmun Confirmed For High Court Post

WASHINGTON (AP) — Judge Harry A. Blackmun's Supreme Court nomination has been confirmed through the Senate without opposition...

Carswell because of his racial views and judicial record.

The suit has been vacated since Abe Fortas turned in his resignation under fire last May.

WASHINGTON (AP) — Judge Harry A. Blackmun's 94-0 confirmation by the Senate brings the Supreme Court up to full strength and probably lends it a little further toward the right.

For the first time in a year, since Abe Fortas was pressured to quit by allegations of ethical impropriety, the court has the nine members it needs to resolve close issues that split the justices 4-4.

Old Friend

Chief Justice Warren E. Burger, at the same time, now has at hand in Blackmun an old friend who is similarly middle-aged, Midwestern, white Protestant and modest origins.

As a starter, then, Burger at least can hope the new man is of a like mind and available to help him here and there, in civil rights cases particularly, that Blackmun's man wanted to go further than Blackmun the judge would allow.

Freer Rein To Feelings?

He could, on the highest court, possibly be more motivated to give freer rein to his feelings. And yet Blackmun assured the senators he would try to keep his personal ideas and philosophies out of his decisions.

Blackmun's record to date indicates he will carry this struggle with him to Washington and come up occasionally on the liberal side. Unless he changes radically, however, his adds up, over-all, to a hesitant but decided conservatism.

Cessation Of Classes Demanded By Blacks

Four Molotov cocktails were tossed into portions of Kaye Hall on the Northern Michigan University campus early this morning, causing little damage to the 65-year-old building.

In another section of the primarily administrative building, an unknown chemical was poured through a broken window, causing smoke and charring a radiator.

NMU President John X. Jamrich meanwhile revealed that he received a threatening phone call at 2 a.m. today from an unknown person who identified himself as a black student at NMU and demanded that classes be halted for the remainder of the semester because of the killing of blacks in Augusta, Ga., Tuesday.

Morning Meeting Called

Upon his refusal to comply with the demand, Jamrich said, the caller told him he "damned well better do something or something will happen."

About 40 black students shortly thereafter appeared in front of Jamrich's home, demanding that classes be recessed, he said.

Jamrich said he told the group that the topic would be discussed with the Academic Senate and other leadership groups later in the morning.

Members of the Michigan Civil Rights Commission were present in front of the Jamrich residence from 3 a.m. until 6 a.m. today.

William Lyons, chief of the Michigan State Department, said that at 2:30 a.m. a routine check by his officers revealed that everything was normal.

But he said, at 5 a.m. one of his patrols noticed a light haze in the basement of Kaye Hall. Members of the security department checked around the building and found heavy smoke near the purchasing department in the basement of an adjoining building.

Windows broken

Lyons said that a window had been broken in the purchasing department and that an unknown chemical was poured in the radiating area.

A further check of the building, he said, revealed that three windows were broken in the area of the dean of students office.

"One of the dean's offices in the basement of the building with the window with a burning rag attached," said Lyons. "Another had a green Molotov bottle with kerosene with a burning rag thrown through the window."

A third office also had a Molotov cocktail thrown through the window.

Still Under Investigation

Lyons said that a Molotov cocktail was tossed into Olson Theater in the basement of Olson Hall, which is attached to Kaye Hall.

There also were reports of broken windows in the basement of the instructional facility and the Thomas Fine Arts Building.

Michigan State Police are investigating the apparent attempt at fire bombing.

The meeting with the Academic Senate and other groups was still in progress at noon today.

Tornado-wrecked cars litter the street near destroyed. There were 20 known dead and post-tornado Lubbock, Tex., following twister that sibly as many as 500 injured. Damages estimated the city Monday night. Business houses mates have ranged up to \$200 million. — (AP)

Also were wrecked. An estimated 4,800 persons (Wichita) were left homeless with up to 750 dwellings de-

Governor Declares State Of Emergency At EMU In Ypsilanti

YPSILANTI (AP) — This community remained quiet today under a state of emergency declared by Gov. William Milliken in the wake of demonstrations by Eastern Michigan University students.

An aide to the Governor earlier reported that the Governor's order had been lifted at daybreak, but later the aide said he was mistaken and that the emergency would continue until further word from the Governor.

The Governor issued his proclamation at 1:30 a.m. and followed it with a series of disruptive students.

The emergency order prohibits the sale of gasoline in cans or bottles.

Relative Calm

Police said that relative calm returned to the campus after Milliken's order was broadcast over bullhorns to students, many of whom reportedly returned to their dormitories and homes. However, police say that about 10 youths were arrested and charged with curfew violation, bringing to about 85 the

Damages Mount In Lubbock

LUBBOCK, Tex. (AP) — Rescued workers and relief agencies pressed a search today for more dead and injured in the debris of this tornado-scarred West Texas city.

There were thousands of homeless — an estimated 4,800 with up to 750 dwellings destroyed — perhaps 500 injured, and 20 known dead.

Estimates of property damage from the savage twister Monday night ranged up to \$200 million.

Building Stands

For a time Tuesday it appeared that the tornado-ruined Great Plains Life building, the city's tallest pride, would totter and fall. Great cracks and gashes were seen in what remained of its facade. The surrounding area was evacuated hurriedly.

But the swaying building stood.

Senate Ready To Debate On Asian War

WASHINGTON (AP) — The Senate stood ready today to begin a great debate on the war in Southeast Asia, a debate likely to continue for the announced duration of U.S. operations in Cambodia.

Democratic Leader Mike Mansfield said the opening round, to take today or Thursday, involves an amendment to draft out funds for U.S. operations in Cambodia effective June 30.

Appeal For Support

That is the deadline announced by President Nixon for withdrawal of the American forces he sent across the border to destroy Communist sanctuaries and supply depots.

In a preview of the long debate ahead, five critics of U.S. policy appeared in an unprecedented network television broadcast for public support of legislation to compel American withdrawal from South Vietnam.

Phased Cutoff

That broadcast, and the Senate timetable designed by Mansfield, are part of a campaign Democratic sources said, to gain votes for a phased cutoff of appropriations to finance U.S. military operations in Cambodia, then in Laos, then in South Vietnam itself.

Israel Pulls Troops Out Of Lebanon

RAJIVJI, Israel (AP) — The Israeli army command announced that all its forces had returned to Israel from Lebanese territory after completing a 30-hour drive against Arab guerrillas based on the southwestern slopes of Mt. Hermon.

About two dozen tanks and halftracks carrying about 200 troops first crossed back into Israel, still smoldered on the plain to occupy 27 square miles of guerrilla-infested Lebanese territory.

The Israeli withdrawal came some 12 hours after the U.S. Security Council in New York demanded an immediate pullout.

The stakes over the battle scene were still streaked with palls of greasy smoke and fires still smoldered on the plain to the west of the 9,000-foot Mt. Hermon.

Reports relayed to Beirut from witnesses in the battle area said Arab guerrillas fought sporadic skirmishes today with the Israelis, and a contingent of guerrillas failed to overrun the main guerrilla base.

The aircraft were sighted over the base, but there was no report of widespread strafing. At Fatah Beirut said Israeli helicopter was shot down Tuesday night and three crewmen were captured.

This was denied in Tel Aviv. The military command in Tel Aviv said 11 saboteurs were captured and an unknown number were killed as the Israelis occupied six villages with an established population of about 6,000 in southwestern Lebanon.

Arms caches and 10 guerrilla buildings were destroyed and 40 guerrillas used by the guerrillas also were killed, the military spokesman said. The Israelis said they suffered 11 wounded.

Some Yanks Pulled Out Of Cambodia

SAIGON (AP) — The U.S. Command announced today the first American troop withdrawals from Cambodia. At the same time South Vietnamese forces mounted a drive on Highway 1 toward the capital of Phnom Penh, 50 miles away.

Associated Press correspondent David Rosenzweig reported that a South Vietnamese armored column accompanied by U.S. advisers pushed up Highway 1 from the provincial capital of Svay Klong to Kompung Trabek, 25 miles from the west Cambodian column linked up with South Vietnamese marines driving up the Mekong River.

The column engaged about 800 enemy troops three miles beyond Kompung Trabek in heavy fighting.

The announced purpose of the drive was to clear Highway 1 for the repatriation of Vietnamese in Cambodia.

Informal sources said the initial U.S. troop withdrawals from Cambodia totaled fewer than 2,000 men.

U.S. General Killed As Enemy Gunners Down Army Helicopter

SAIGON (AP) — Maj. Gen. John A. B. Dillard, commander of the U.S. Army Engineer Command in Vietnam, was killed Tuesday when the helicopter in which he was flying was shot down by enemy gunners, the U.S. Command announced today.

Dillard was the sixth American general killed in action in Vietnam. Dillard, 50, of Corte Madera, Calif., and eight other Americans were killed in the crash. One survived the crash but was seriously injured.

Second Anniversary Of Peace Talks

PARIS (AP) — Today is the second anniversary of the peace talks in Hanoi. The talks began May 13, 1968, in the old Majestic Hotel on the bank of the Seine. That was when President Lyndon B. Johnson announced a partial halt to the bombing of North Vietnam, and his simultaneous decision to refuse recognition of the Communist regime not based on free elections and will not commit itself to total withdrawal of troops without a similar commitment from Hanoi. Hanoi now discusses elections controlled by the present Saigon government on a coalition regime as the basic condition for its withdrawal.

Public Pays Respects To Reuthers

DETROIT (AP) — The public paid its respects today to United Auto Workers Union President Walter P. Reuther and his wife, whose bodies were laid to rest Monday in the Memorial Building on the bank of the Detroit River. The Reuthers were among six persons who were killed when an executive jet crashed and exploded while approaching an airport at Pelee Island, Saturday night.

Cremation will follow. a.m. Friday at nearby Ford Auditorium. Cremation will follow.

Black-White Runoff Slated In Newark

(By the Associated Press)

Negro engineer Kenneth Gibson won 42.7 percent of the vote in Newark, N.J., Tuesday to set the city's first black-white mayoral runoff. He will face indicted incumbent Hugh J. Addonizio. Primary voters in West Virginia and Nebraska strongly backed U.S. Senate incumbents.

Ohio NG Report Indicates Possibility Of Sniper Fire During Kent State Shooting

COLUMBUS, Ohio (AP) — New indications of possible sniper fire in the Kent State University shootings which killed four students have been reported by the Ohio National Guard.

Guard spokesmen, who contended that troops opened fire during a confrontation with anti-war demonstrators after a sniper began shooting, said Tuesday a 32 caliber pistol had been raised from the river and both U.S. weapons — two handguns and two rifles — had been taken from persons arrested the day of the shootings.

Fired Pistol In Air

The Cleveland Plain Dealer reported today that three persons saw a guardsman fire a pistol into the air above a student's head during an incident on the football practice field 10 minutes before the fatal shootings.

Workers Heard Shot

"He held his pistol at a 45-degree angle, aimed over the rock throwers," the Plain Dealer quoted Richard Schreiber, a Kent State journalism professor, as saying.

"He fired at least one round over their head. With my binoculars, I saw the recoil and the muzzle blast when he fired."

Two Kent State students, Sharon Keene of Kent and Patrick (See Sniper, Page 10)

National Guardsmen are shown firing at student of possible sniper fire at the time of the shooting.
