

Memorandum for the Files
May 12, 1970

A Mr. Larry Adcock of the Detroit Free Press called and inquired about whether I saw any evidence of an unusual increase in the arming of white students or the carrying of concealed weapons by black students. My response to him was that I have seen no evidence at all, and in fact there is no evidence to indicate that there is any particular physical violence, so to speak, in the air as a result of what he called unusual tensions between black and white.

(This appears to be more of the feeding of flames to try to concoct some thing where nothing actually exists.)
