Dear Mr. Wright:

President Jamrich has asked me to send you the following documentary materials as contained in your request of May 15, 1970:

- 1) Faculty Senate resolution on the Women's Job Corps Program
- 2) Faculty Job Corps questionnaire written by Professor Au-Yeung
- 3) Unpublished survey of department heads created by Mrs. Trapp.

You indicated that you already had in your possession 1) Copies of HRC writings, particularly minutes, reports, and memos; 2) Collation of faculty survey made by the ad hoc committee for the investigation for minority emphasis in School of Arts and Sciences; 3) Tapes of the Bourland-Quinnell debate and the Wednesday (May 13, 1970) Academic Senate meeting. With reference to the tapes of the Charles Griffis hearings, these were made available to the Student-Faculty Judiciary for the appeal. After the appeal, they were erased which is in keeping with the established policy that tapes of closed hearings are made available only for an appeal and for no other purpose. The tapes of the Student-Faculty Judiciary hearing are available. That was an open hearing.

Regarding your request for a final report on the OEO Women's Job Corps program, no final report, as such, was ever prepared. The Public Services Division made periodic progress reports but toward the termination of the program, staff time was devoted primarily to reassigning the enrollees and finalizing financial and inventory reports. I am, however, sending along a position statement on continuation of the Job Corps program issued by President Jamrich.

As to the proposed study by the Registrar relative to allegations by the editor of the "Northern News" that instructors gave black students preferential treatment, this has not been done because the Registrar says there appears to be no basis for the allegation.

If we can be of any further assistance in providing you materials, do not hesitate to call on us.

Sincerely yours,

Jack R. Rombouts
Vice President for Administration
